FIGHT ON FOR SLAIN MAN'S ESTATE

TAFT HAS BUSY DAY IN OHIO

He Is Scheduled to Make Four Speeches in Columbus and Attend Dedication

Heavy Cold Causes Him Little Inconvenience, Despite Many Addresses

COLUMBUS, Ohio, Jan. 30.—President Taft arrived from Cleveland today and will remain here until tomorrow afternoon, make four speeches and attend the dedication of the new postoffice. The President remained in his private car for breakfast and later was escorted to his hotel by state and city officials, troops from the Columbus barracks, a band of the National Guard and other organizations. A public reception at the hotel followed. The remainder of the day's program called for the President's presence at a luncheon given by the Columbus Chamber of Commerce, the dedication of the postoffice this afternoon and the McKinley day banquet tonight.

STILL HAS COLD. The President is still troubled with a cold, but it is not believed it will in any way interfere with the program here or at Akron tomorrow night.

Officials accompanying the President on his tour were much surprised to hear the report had been circulated that Taft was suffering with pneumonia. His condition, they said, was the same as present as when he had left Washington and should excite no anxiety. The President's hoarseness was accentuated last evening by his speaking for several hours in a hall filled with tobacco smoke.

Between 2000 and 3000 persons shook hands with the President at the reception held at the Southern hotel immediately after his party arrived.

WOULD SETTLE COUNTRY. CLEVELAND, Jan. 30.—A plan for the settlement of the immigrants in the country, rather than in the cities, was made last night by President Taft at the banquet given by leading Hungarians of Cleveland that followed the larger function of the Tippecanoe Club. The President said that as he looked about him and saw the type of American citizens developed from the foreign immigrant he felt that there was no reason for alarm in the tide of immigrants sweeping toward us, so long as the proper rules and regulations to keep out the riffraff that no country wanted were enforced. "But," the President said, "the cities should not be increased by immigrants when there awaits them in rural districts a greater field for serving the country to which they come to make their own."

MRS. MOORE CUT OFF WITH SINGLE DOLLAR

Will of Capitalist Leaves Entire Fortune of \$200,000 to His Son; Contest Planned

SAN FRANCISCO, Jan. 30.—Attorney E. B. McGlashan appeared before Superior Judge Buck at Redwood City this morning and petitioned for the probate of the will of the late J. J. Moore, the San Francisco coal merchant, who was shot down by R. S. Timothy late Saturday night. Further developments will come with the revealing of the contents of the will, as the fact is brought out that following the refusal of the court to legally grant a divorce to the Moores the merchant made a new will and cut off his wife with a legacy of \$1.

The document is dated January 5, and without reservation bequeaths the entire estate, consisting mainly of stock in J. J. Moore & Co., to his son, Jefferson, who is a clerk in that concern. His life insurance and several pieces of realty are also included in the property and the estate totals, it is said, approximately \$200,000.

Special letters of administration are to be issued by the Superior Court at Redwood City and as soon as a bond is filed Jefferson Moore expects to assume control of the property. That Mrs. Moore will contest there seems little room for doubt and today she was in consultation with her attorney, W. H. Jordan. Up to noon, however, no papers have been served upon attorneys McGlashan and Derby, who are looking out for the interests of the son.

The possibility of a legal contest over the disposition of Moore's property appeared today in the declaration of Attorney William H. Jordan, representing Mrs. Moore, that Moore had made a will two years ago, which left the greater portion of his property to his wife. Jordan said he would contest the will filed today.

SPEEDY MEASURES. The speedy measures taken by counsel yesterday in obtaining the will indicate that the elder Moore communicated to his son the fact that he had made him his sole heir. Moore is a man about 25 years of age and has been connected for some time with the firm. On learning of his father's death he promptly retained the attorney and it was arranged that today the petition for the probating of the will be filed at Redwood City.

The will is very brief and although the exact contents of it could not be learned, it is dated January 5, clearly mentions Mrs. Moore and spells out the sum of \$1 with which she is cut off.

Moore's body was to be taken to Cypress Lawn cemetery this afternoon at 3 o'clock, after which the body will be cremated.

Whether or not Mrs. Lillian Moore will attend the services is still a matter of doubt, but friends of the woman stated today that probably she will not.

Yesterday's developments in the case happened swiftly. Attorney E. B. McGlashan, acting for Jefferson Moore, son of the slain merchant, broke into Moore's safe and seized his last will and testament. McGlashan says that he took this action after being informed that the San Mateo authorities had failed to

J. J. Moore's Will as Filed Today

In the name of God, Amen. I, John Jefferson Moore, of the county of San Mateo, State of California, and doing business in the city and county of San Francisco, in said state, being of sound and disposing mind and memory and not acting under duress, menace, fraud or undue influence of any person whatever, do make public and declare this my last will and testament in the manner following, that is to say:

FIRST—I hereby revoke and make null and void all other wills by me heretofore made.

SECOND—I hereby declare that all property now owned and possessed by me is my separate property.

THIRD—I direct that all my just debts and funeral expenses be paid by my executor as soon as may be.

FOURTH—I give, devise and bequeath to my wife, Lillian J. Moore, the sum of one dollar, and I make no other or future provision for her for many reasons, which I deem good and sufficient.

FIFTH—After the payment of said debts and funeral expenses, I give, devise and bequeath to my son, Jefferson Macleod Moore, all of my estate, both real and personal, of whatsoever kind and wheresoever situate, absolutely.

SIXTH—I hereby nominate and appoint my said son, Jefferson Macleod Moore, to be the executor of this my last will and testament, and direct that he shall have power to sell any or all of my said property without order of court, and that no bond be required of him for any purpose as such executor.

(Signed) J. J. MOORE.

In witness whereof I have hereunto set my hand and seal this 5th day of January, A. D. 1912.

LETTERS OF CANDIDATE GIVEN OUT

Correspondence Between the Publisher and Politician Made Public

Watterson Cries 'Liar' in a Farewell Slap at Princeton Man

NEW YORK, Jan. 30.—The New York Evening Post has sought for the sake of justice to all concerned to secure the publication of the correspondence between Governor Wilson and Colonel Harvey. In that sense it applied to them both. Neither wished to be put in the position of giving out private letters, but has consented to the publication with the distinct understanding that the initiative came from the Evening Post.

The first letter addressed to Colonel Harvey by Governor Wilson is as follows: University Club, Fifth Avenue and Fifty-fourth Street, 21 December, 1911.

(Personal.) My Dear Colonel: Every day I am confirmed in the judgment that your mind is a one-track road and can run only one train of thought at a time. Long time after that interview with you and Marse Henry at the Manhattan Club it came over me that when (at the close of the interview) you asked me that question about the Weekly, I answered it simply as a matter of fact and of business, and said never a word of my sincere gratitude to you for all your generous support, or of my hope that it might be continued. Forgive me and forget my manners.

FAWCEED WILSON. HARVEY'S REPLY.

In reply Colonel Harvey wrote to Wilson:

My Dear Governor Wilson: Replying to your note from the University Club, I think it should go without saying that no purely personal issue could arise of your editorial comment, so far as it lay within my power to do so, by ceasing to advocate your nomination.

That, I think, was fully understood between us at the time and, acting accordingly, I took down your name from the head of the Weekly's editorial page some days before your letter was written. That seems to be all that there is of it.

Whatever little hurt I may have felt as a consequence of the unexpected pre-emptory nature of your attitude toward me is, of course, wholly eliminated by your gracious words.

Very truly yours, GEORGE HARVEY.

"UNEASY AND ASHAMED."

Governor Wilson replied under date of January 11 as follows: My Dear Colonel Harvey: Generous and cordial as was your letter written in reply to my note from the University Club, it has left me uneasy, because in its perfect frankness it shows that I did hurt you by what I so tactlessly said at the Knickerbocker

Second Dalton Indictment Is Dismissed by Court

On a motion made this forenoon by District Attorney Donahue, in the criminal department of the Superior Court Judge Everett J. Brown, who sat at the trial, dismissed the second indictment for soliciting and agreeing to accept a bribe of \$25,000 from the Spring Valley Water Company against Henry P. Dalton, former county assessor. The court also ordered, on the motion of the public prosecutor, the return to the Spring Valley people of all exhibits it owns that were used in the trial of Dalton. Among them is the \$5000 marked currency that Dalton received from Vice-President Eastman in the Barnum restaurant a few minutes before his arrest for bribery.

Mob of 500 Storm Jail and Lynch Negro Fiend

CORDELLE, Ga., Jan. 30.—A mob of 500 men stormed the jail today, where Albert Hamilton, the negro assailant of a white girl was confined, took him and hanged him to a tree. Troops ordered here failed to arrive in time to save the negro's life.

Hamilton's victim was a member of a prominent Cordelle family and the attack took place in the city's principal residence section. After Hamilton was captured the young woman positively identified him.

GIBRALTAR, Jan. 30.—King George and Queen Mary arrived here today on board the steamer Medina, which is bringing them back to England from India, where the king and queen were crowned emperor and empress. The Medina's flag was floating at half-mast as the vessel entered the harbor. A Moorish delegation will be presented to the king during his stay here.

Bombs Hurlled at Homes Of Viceroy and General

TIENTSIN, Jan. 30.—Bombs were thrown early today at the residences of the viceroy and the commanding general at Tientsin, but the attempts to destroy the houses with their occupants, among whom were several important officials, were not successful. Several arrests were made and it is believed the world-be assassins are among the prisoners.

CONFESSED FIREBUG DEAD

David Abrams Ends His Earthly Troubles by Bullet in His Brain

San Franciscan Charged With Crime Forestalls the Courts

SAN FRANCISCO, Jan. 30.—After brooding for a week and a day, his brain continually in a whirl and his soul tormented at the thought of a trial for arson, and likely imprisonment in the penitentiary for a long term, David Abrams, the tailor, who set fire, according to his own admission, to his group of "flats" at Franklin street and Broadway, killed himself shortly before 6 o'clock this morning.

Thus ends one of the most sensational instances of the work of a firebug with which the police have had to deal and which brought about the arrest of an apparently innocent woman whose home had been deluged with wood alcohol during her absence, and against whom suspicion strongly pointed soon after the discovery of the blaze.

Following the apprehension of Mrs. Netta Rouda, in whose flat the fire was set, Abrams, torn by conflicting emotions, and evidently fearing discovery, went to the shop of his employer, H. H. Armstrong, at 44 Eddy street, attached a tube to the gas jet and lay down to die. His effort at suicide, however, was unsuccessful and he was discovered before the deadly fumes had done their work, revived at the hospital and then charged with arson and released on substantial bail.

WIFE HEARS SHOT.

This was a week ago, and this morning Mrs. Bertha Abrams, the wife, and her daughter were awakened by the sound of a pistol shot and hurried into the adjoining apartment, found Abrams with a revolver by his side and a gaping hole in his head. Dr. O. J. Meyer of 177 Post street was hastily summoned, but when he had arrived Abrams was already dead. The coroner's office was notified.

It was at 11:42 o'clock on January 21, that the fire department was summoned to a blaze on the northeast corner of Franklin street and Broadway. An investigation showed that 150 ice cream pails had been filled with wood alcohol and one of them touched off with a candle. The fact that the windows had been shut tight, allowing little air, alone prevented the structure from immediately becoming a seething furnace of flame. As it was the blaze sputtered and the alcohol smoked and the total damage would scarcely reach \$500.

INVESTIGATION MADE.

The incendiary character of the fire caused Marshal Towe to be summoned and he arrested the occupant, Mrs. Netta Rouda, whose husband is in Philadelphia, and she was taken to the city prison.

The discovery of Abrams unconscious in the tailor shop next morning put a new light upon the affair and as it developed that he had been out on a mysterious mission during the evening and returned after his wife had retired, that he had a key to Mrs. Rouda's flat and that he had

Ralph Kyle Hurlled Clear of Machine When It Plunges Into Ditch.

A machine belonging to the Oakland Taxicab Company, driven by Ralph Kyle of 150 Eleventh street, became unmanageable and left the road in Albany this morning at 1 o'clock. The machine was badly wrecked, but the chauffeur was thrown clear of it and escaped with a few cuts and bruises about the head. Nobody was in the vehicle besides Kyle. The chauffeur was brought to the Receiving Hospital for treatment, and this forenoon the Oakland Taxicab Company had the wrecked machine brought in. The records at the Receiving Hospital show that Kyle had been drinking.

\$15,000 insurance and a \$7000 mortgage on the place, brought about his own arrest on the arson charge and the dismissal and exonerated of Mrs. Rouda in the police court. After his recovery Abrams obtained his release on bail and his wife and daughter begged him not to worry, declaring that they would stand by him.

"I told my husband that he must not worry and that he could only hope for the best," said Mrs. Abrams, tearfully this morning. "He promised me that he would not be melancholy and my daughter and myself implored him not to again attempt to kill himself."

Abrams was 45 years old. The grand jury was tonight going to take up the Abrams case and this had also been waiting the editor for several days. He had been forced to put up a bond of \$10,000 before gaining his liberty. In a confession made to Fire Marshal Towse, Abrams admitted setting fire to the house, to collect the insurance so as to free himself from a \$7000 mortgage, but later denied that he had done so and protested his innocence.

Prisoner Refuses to Deny Admissions Said to Have Indicted Darrow

Earl Rogers Declares His Absolute Assurance of His Client's Innocence

LOS ANGELES, Jan. 30.—Whether or not the indictment returned against Clarence S. Darrow, the Chicago attorney, by the county grand jury was based upon an alleged confession to that body by Bert H. Franklin, former McNamara defense detective charged with bribing, probably will not be definitely known until the case comes to trial.

So far after the indictments against Darrow for alleged corruption of jurors in the McNamara case were returned yesterday, rumors became prevalent that Franklin had told all he knew of the alleged jury bribing to the grand jury. Neither the assistant district attorneys who have had charge of the investigation before the grand jury, nor Franklin himself, would make any statement in detail.

FRANKLIN SILENT.

The prosecutors declared upon being questioned that this public would be compelled to await the trial, before learning what evidence was in possession of the state. Franklin, when asked if he had made any confession to the grand jury, said that he would not issue any denial nor would he confirm the rumor.

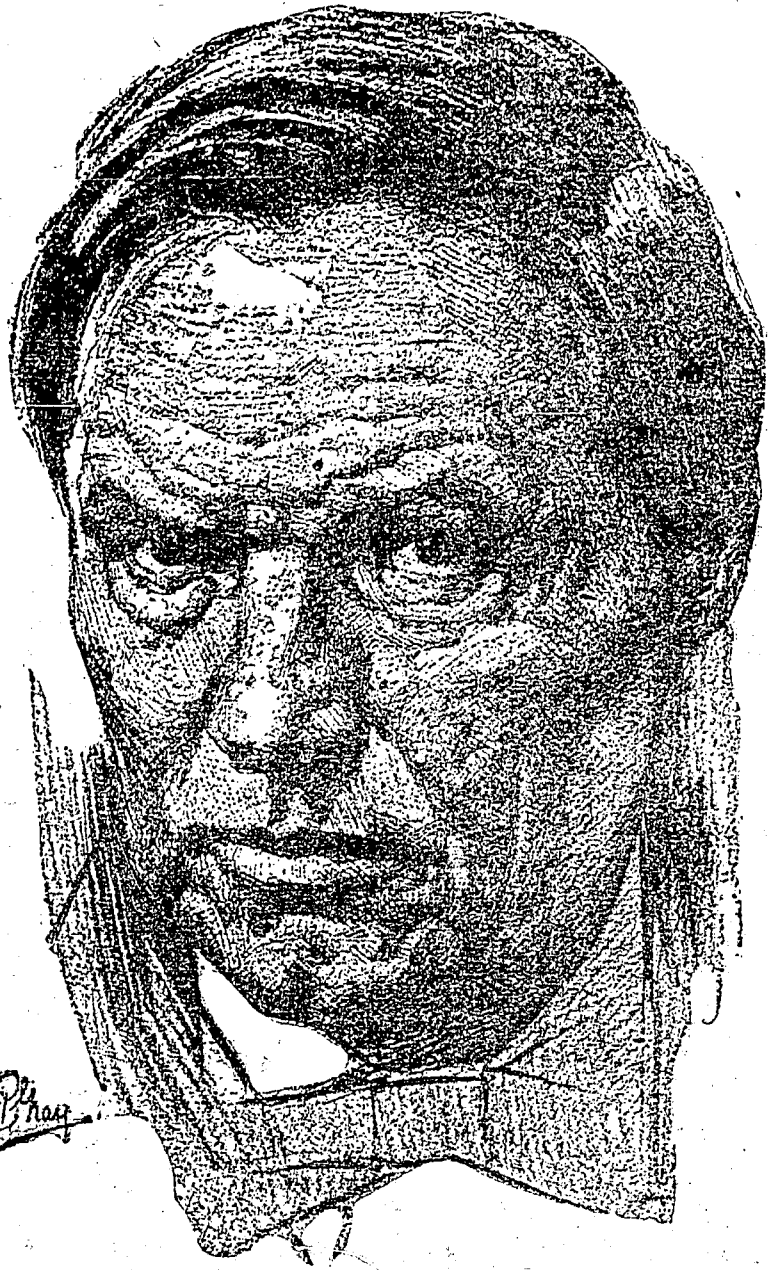

No surprise was caused by the return of the indictment as it had been rumored persistently that the former chief counsel for the confessed dynamiters would be involved in the indictment into the alleged jury corruption.

His own attitude indicated that he had reason to believe an indictment would be returned against him, as several days before the report of the investigators he had employed Attorney Earl Rogers to represent him.

Rogers was employed in prosecuting the dynamiters of the Los Angeles Times soon after the blowing up of the newspaper plant and some surprise was occasioned when his retention by Darrow became public. In a statement issued by Rogers, the attorney declared that he had absolute assurance of Darrow's innocence.

Although acting with all celerity,

ATTORNEY CLARENCE DARROW, who has been indicted for the alleged bribery of McNamara jurors.

the prosecution in the case of Darrow does not expect to bring the noted lawyer and philosopher to trial on the true indictments against him for a long time.

Meanwhile the county grand jury which reported the bills against Darrow yesterday will continue its probe, and W. Joseph Ford, the deputy district attorney who conducted the bribery investigation, declared today that startling developments, wholly apart from Darrow and concerning only the conspiracy phase of the alleged national dynamiting operations of John J. McNamara and his "wrecking crew" might be expected at any time.

While extending to Darrow every personal courtesy, the assistants of District Attorney John D. Fredericks are bent on procuring Darrow's conviction on the charges that he bribed Robert Bain, a sworn juror, and Geo. N. Lockwood, a venireman, although the actual passing of the money, it is alleged, was entrusted to Detective Bert H. Franklin, who is scheduled to be tried on similar charges February 27.

Arthur Ketch, an assistant district attorney, said today that several weeks would be necessary to complete the evidence.

"Darrow will be brought to bar in less than two months," he predicted.

PROBE ALLEGATIONS.

INDIANAPOLIS, Jan. 30.—Further than to reiterate that the federal grand jury is investigating allegations that national labor leaders were connected with the McNamara bribes in the dynamiting conspiracy, United States District Attorney Charles W. Miller refused today to comment on the news from Washington that Frank Morrison, secretary of the A. F. of L., had been subpoenaed to appear here.

"We will not divulge the identity of any witnesses that have been or are to be subpoenaed," said Miller.

MORRISON SUBPENAED.

WASHINGTON, Jan. 30.—Frank Morrison, secretary-treasurer of the American Federation of Labor, and Henry Flather, cashier of the Riggs National bank, which is the depository for the federation's funds, and also for the McNamara defense fund, have been subpoenaed to appear on February 1 before the federal grand jury at Indianapolis which is investigating dynamite plots.

"I will appreciate this opportunity to show all our books and have the federation's accounts investigated by the federal authorities," said Morrison, when he received the subpoena.

It has been stated by labor leaders that the bulk of the money was turned over to Clarence Darrow, the attorney indicted for bribery yesterday at Los Angeles. An examination of the federation's books prior to the date named by the grand jury, Morrison declared, would show no disbursements to the McNamara brothers or to the structural iron workers' organization.

A complete report of the McNamara defense fund, receipts and expenditures, will be sent to every union which contributed. Morrison said today that this was ordered by the executive council of the A. F. of L. in its quarterly session here early this month. When the McNamara defense fund committee met here shortly after the confessions of the McNamaras it was announced that disposition of the

GOMPERS IS GLAD.

NEW YORK, Jan. 30.—That's all right; I'm very glad to hear it," declared Samuel Gompers today, on learning that Frank Morrison and Henry H. Flather had been subpoenaed to testify before the federal grand jury at Indianapolis. Gompers said he had no statement to make regarding the indictment of Clarence S. Darrow at Los Angeles.

MUKDEN POLICE
MURDER REBELS

Raid Homes of Prominent Men and Carry Off Wives and Daughters.

PEKING, Jan. 30.—The police of Mukden are systematically raiding the homes of prominent men suspected of being in sympathy with the revolutionary party, assassinating them and carrying off their wives and daughters, according to a letter from a missionary in that city, received here today. Consular reports confirm the accounts of scores of murders nightly. The letter of the missionary continues:

"Whole armies of mounted robbers are holding up and plundering travelers along the roads leading into Harbin. These brigands hold the rich for ransom, which has to be paid either in guns, ammunition or in money. They torture and kill their victims if ransom is not forthcoming. The law-abiding Chinese of the vicinity are praying for the intervention of the Japanese in southern Manchuria and of the Russians in the north."

General Chao Erh Feng, the viceroy of the province of Sze-Chuan, who was decapitated by the revolutionists at Cheng Tu in December, was the brother of General Chao Erh Hsun, the viceroy of Manchuria. The latter is evidently determined not to share his brother's fate, and perhaps is also exacting vengeance for his brother.

General Chao Erh Hsun is the only vigorous opponent of the republicanism among the remaining viceroy. He has adopted the method of employing hundreds of brigands as a police force and is legalizing crimes and assassinations by these bands.

L. D. VOICE,
MERCHANT, DIES

Many Friends Attend Funeral of Pioneer Grocer of This City.

Funeral services were held this afternoon for the late Louis David Voice, well known merchant and pioneer of Oakland, whose death occurred last Saturday at his home, 1785 Telegraph avenue. The services were attended by scores of friends in addition to the relatives. The cortege followed the hearse to the crematory, where the remains were reduced to ashes. The honorary pallbearers were Frank Searing, J. A. Hill, Mark Thomas, H. L. Osgood, H. U. Maxfield and William Mercer.

The decedent was one of the pioneer grocers of Oakland and was well known in many walks of life.

'I'M SORRY,' SAYS

"Ashamed I Was So Blunt and Tactless," Writes the Candidate.

Club. I am very much ashamed of myself, for there is nothing I am more ashamed of than hurting a true friend, however unintentional the hurt may have been. I wanted very much to see you in Washington, but was absolutely captured by callers every minute I was in my rooms, and when I was at home was filling public engagements. I saw you at the dinner, but could not get at you, and after the dinner was surrounded and prevented from getting at you. I am in town today to speak this evening and came early in the hope of catching you at your office.

For I owe it to you and to my own thought and feeling to tell you how grateful I am for all your generous praise and support of me (no one has described me more nearly as I would like to believe myself to be than you have). How I have admired you for the independence and unhesitating courage and individuality of your course, and how far I was from desiring that you should cease your support of me in the Weekly. You will think me very stupid, but I did not think of that as the result of my blunt answer to your question. I thought only of the means of convincing people of the real independence of the Weekly's position. You will remember that was what we discussed.

And now that I have unintentionally put you in a false and embarrassing position you heap coals of fire on my head by continuing to give out interviews favorable to my candidacy. All that I can say is that you have proved yourself very big and that I wish I might have an early opportunity to tell you face to face how I really feel about it all.

With warm regard, cordially and faithfully yours,

WOODROW WILSON.

It is noted in the foregoing that mention of the Knickerbocker, instead of the Manhattan Club, is obviously a slip of the pen.

Colonel Harvey's reply, dated January 16, 1912, was as follows:

My Dear Governor Wilson: Thank you sincerely for your most handsome letter. I can only repeat what I said before—that there is no particle of personal rancor or resentment in me. And I beg you to believe that I have not said one word to anybody of criticism of you.

I have to print a word of explanation to the Weekly's readers, but it will be the briefest possible. Very truly yours,

GEORGE HARVEY.

WILSON IS SILENT.

TRENTON, N. J., Jan. 30.—The latest statement of Colonel Watterston admits of no comment from me," said Governor Woodrow Wilson today when newspaper men asked him if he had any reply to make to the editor's statement issued last night. When asked for his reasons for making no comment the governor said:

"I had hoped that they were self-evident." The governor then added: "I am only sorry to have to regret the friendship, which, while it lasted, I found interesting and enjoyable." Asked if he did not mean to say the loss of friendship, the governor replied that he preferred to have the statement understood as he had dictated it.

WATTERSTON'S STATEMENT.

WASHINGTON, Jan. 30.—Colonel Henry Watterston last night issued the following statement regarding the Woodrow Wilson episode: "The time limit set upon my stay in the national capital and my having refused my offer as to the issue of veracity he has raised between us to submit proof of the truth of my avowal to party associates competent to judge both of its character and the expediency of its publication. I shall bring this most distasteful episode to a close as far as I am concerned."

"The sole issue is, whether I have lied, as Governor Wilson says I have, or he has lied, which I have engaged conclusively to show. He dare not face the issue."

"The Presidential campaign, to which the gubernatorial election of Wilson had served as a prelude, began in a manner I had been dragged into—I will not say decoyed—into the service of Governor Wilson and Colonel Harvey. The succeeding months brought me into confidential relations with Governor Wilson. Letters passed between us. Upon his invitation and on his business I visited his home in Princeton. He was good enough last winter to come to the steamer to see me off for Europe."

"I found him a man of polished manners, scholarly attainments and undeniable talents."

"The fortnight immediately pre-

ceeding the interview at the Manhattan Club, of which I have been a member since it was founded, to do justice between man and man, and men and men, I had done what I could in the interest of his campaign. I was met on my arrival in New York by a most urgent appeal for money from a gentleman of distinction closely associated with, if not actually directing, the Wilson organization, and in answer to this I was able at once to secure considerable money. The meeting at the Manhattan Club was designed still further to push forward and perfect the work of organization. Else why, and for what was the governor there?"

"To confuse and mislead the public he has latterly adopted a policy of alternate silence and sneering. Giving the lie direct to my statement that I was asked to help the financial end of his campaign and declining my offer to submit the proof of its truth to a body of gentlemen and Democrats equally concerned with themselves for the well-being of the party, he thinks to cloud the issue and escape its menace by turning upon the irresponsible character of a literary bureau which claims to live off the immaculate contributions of subscribers having wings, harps and halos, and which has been for weeks flooding the country with every manner of falsification."

"LIE OUT OF WHOLE CLOTH."

"The Ryan story, which has made such an impression upon the unknown and unreflecting, was, as far as it related to Colonel Harvey, a lie out of whole cloth. Though Governor Wilson knows this, he has allowed it to circulate without correction. The attempt which followed its exposure by me to make it appear that I have intimated that application was made to Mr. Ryan, is cut off the same cloth and is characteristic of the duplicity which attaches itself to the entire proceeding of the governor and his publicity agent."

"The action of Mr. Ryan was

eagerly caught up by these agents. A political promoter refused to money from anywhere or body. But when I spoke to Governor Wilson about it, he said some unkind things of Mr. Ryan, expressing a fear that if the knowledge of such a contribution got abroad it might do more harm than good—an opinion with which Colonel Harvey promptly concurred—and the matter went no further.

"Certain it is that Mr. Ryan never heard of the matter. Neither I nor anyone else spoke to him on the subject."

"The effect of the Wilson promoters to revive it and bring it to the front is simply an unprincipled attempt to divert the public attention from the fact that Governor Wilson has been rattling around as a hero because of his indignant rejection of Ryan's offer to submit that Ryan was never pressed upon him at all."

"His courageous repudiation of Harvey, which has put such a feather in his cap, was of a piece with this. While Governor Wilson was receiving a spark of honorable sensibility he would at once demand and require the publication of the abject letters he wrote to Harvey when he was made to understand and realize that he must square the account of ingratitude or take the consequences. Meanwhile, let me say that, while the governor's truly repentant may placate the forgiving Colonel Harvey—while it may even satisfy the susceptible Mr. Bryan—I refuse longer to follow a man whose nomination would, in my judgment, be a disaster and whose election a calamity. He who cannot show himself so loyal to private friendship can not be trusted to be loyal to anything."

This Quickly Cleanses
Both Hair and Scalp

"A harmless and entirely satisfactory shampoo can be enjoyed at little expense," says Mrs. Mae Martyn in the Baltimore Express. "If you get an original package of canthorin from your druggist and dissolve a teaspoonful in a cup of hot water. This is enough mixture for a thorough cleansing of both hair and scalp. The canthorin mixture makes a wealth of rich, white lather that dissolves every atom of dust, dandruff and excess oil. Rinsing leaves the hair and scalp immaculately clean, and after a thorough shampoo the hair dries quickly and evenly, taking on such a rich gloss and softness, so that doing it is a genuine pleasure. Occasional shampooing with canthorin keeps the scalp clean and pliant and induces a heavy growth of beautiful, lustrous hair."

LAST STORMY EVENING OF MOORES IS DISCLOSED

Attorney Jordan Declares That Dead Man Threatened 13-Year-Old Daughter

(Continued From Page 1)

deliver to young Moore the keys to his father's office and safe.

SUSPECTED PLOT.

Suspecting a plot to steal Moore's will, McClanahan stated, he took this step. Later Moore's room in the Union Club was broken into by the attorney and young Moore and all effects and papers necessary to a contest at law were taken.

With all of Moore's valuable papers in his possession, Attorney McClanahan began preparations to resist any move that Mrs. Moore and her lawyers might make toward breaking the Moore will and securing more than a bare community share of the dead merchant's estate.

Almost as soon as the sensational seizure of Moore's will became known it was asserted by persons who claimed to know that Moore, in his last will, had left the bulk of his estate to his son, Jefferson Moore, and had cut off his wife with a nominal sum.

And coincident with this it was said that Mrs. Moore was expected to attempt to defeat the will upon the ground that her husband was insane at the time the will was executed.

WOULD GET ONE-HALF.

Should Mrs. Moore successfully prosecute such a suit it would mean, according to lawyers, that she would receive a full one-half of Moore's entire estate, instead of a community interest.

There seemed to be a lively expectation that a bitter controversy over the disposition of Moore's property will ensue, and that the civil battle will begin even before the homicide case against Chauffeur Timothy shall have been disposed of.

In all probability the last will of Moore will be offered for probate in the Superior Court at Redwood City within a short time, and application be made for special letters of administration.

and called his daughter and the servant perjurors and other names for the part they had played in the divorce case.

He then went out threatening revenge, it is alleged. The little girl (and this story comes from another source) was trembling with fright at her father's behavior. She ran and hid upstairs.

When her mother came home Lillian cried in her arms. Then came the shooting. Lillian was in her bedroom, unable to sleep. She heard the first shot and thinking that her father had come back and was trying to carry out his threat to kill Mrs. Moore or Lena, the girl ran to a drawer where she knew a pistol was hidden.

She was going downstairs with the weapon in her hand, going to defend someone, when the maid saw her. She took the pistol away from her and tried to calm her.

In the rapid events that happened after that the girl's part in the tragedy was forgotten.

Moore, according to Attorney Jordan, had been seeking his wife for a week before the shooting. Moore had begged his wife to dine with him in San Francisco, and although she felt that in view of what had happened it would be injudicious to do so, she consented and with her daughter had dinner with Moore at Tail's restaurant last Thursday evening.

The following evening Moore called at his San Mateo home and saw his wife for a few minutes.

"I was afraid that something would happen in this case when the divorce was refused," said Jordan. "I was afraid there would be shooting, but I did not think of a third party."

"I never heard of a more bitter divorce proceeding than the Moore's, and it always struck me as foolish to deny a couple like that a separation forever. There was never any chance for a reconciliation. Judge Buck's decision now has been appealed from."

"Mrs. Moore has her divorce, although not of the kind she wanted."

MAY NOT GO TO FUNERAL.

Jordan had just come from a talk with Mrs. Moore. He was the only outsider who saw her yesterday. He said she was feeling very badly over Moore's death, but had not decided whether to go to the funeral or not.

"I am sure that Saturday night's happenings are concerned," said Jordan. "I am sure that Mrs. Moore was not in the machine with Timothy. She assures me of it and Timothy says so on his word of honor."

"I saw Timothy in the jail and he does not seem to feel that there will be any trouble for him in the outcome of this case. I shall appear for him at the preliminary hearing, and will look after his interests. I will not ask for bail."

There are many peculiar things in this case. I shall probably know all that Moore did in proceeding against his wife. It is rumored that Timothy was a detective for Moore, but I know nothing of it. All I know is that he was not employed in any capacity by Mrs. Moore.

ASKED ABOUT MRS. MOORE.

"I saw Timothy before the divorce case was tried and I asked him about Mrs. Moore, and if he knew anything about Moore. At that time I had heard from some indefinite source that Moore's Australian life was being looked up by some one. I asked Timothy if he had ever heard anything about this, and he replied that he had not. I told him that if he found out anything to let me know. This is as far as any employment by us of Timothy went."

Asked about Moore's will, Jordan said: "I have heard nothing positive about that. I understand that Moore had made a will several years ago, naming his wife as executrix, and that he never had changed it. I understood Mrs. Moore to say that her husband told her that a week or so ago. Of course she is his widow and is entitled to one-half of the community property. Her rights will be taken care of."

A warrant charging Timothy with murder was sworn out yesterday before Justice H. A. McCormick by Chief of Police M. F. Boland of San Mateo. It was served yesterday afternoon and the arraignment will take place on Friday in all probability. The preliminary hearing will be set for next week.

The inquest over the body of Moore will be held in Deputy Coroner Snyder's parlors at San Mateo, Thursday evening at 7:30 o'clock. It is understood that Mrs. Moore will not be called to testify and that the only witnesses will be Chief Boland, Timothy, Constable Sheehan and City Attorney Kirkbride of San Mateo, who took Moore's deathbed statement, which is expected to exonerate Timothy, away from him as he fell, has left town on a business trip which he had arranged some time ago.

Mrs. Moore remained in strict seclusion yesterday. Her relatives guarded her closely and said that she was in a state of nervous prostration. She was expected to get the facts in the case leading up to the shooting. It was said that a chauffeur had been found who had often seen Timothy's automobile, which was easily recognizable because of its top and shape, standing in a side road near the Moore residence late at night frequently. It was also said that witnesses had been found who had seen Mrs. Moore in the machine with Timothy Saturday night.

FEWER DAILY NEWSPAPERS

Statistics for Past Year Show They Are Diminishing in Number.

PHILADELPHIA, Jan. 30.—Newspaper census figures for 1911, compiled by the American Newspaper Annual and Directory, published here today, indicate that multiplication of daily papers in the United States has come to a halt. A year ago the number was 2472; the 1912 Annual lists 13 less, showing that the trend in now in the downward direction. According to this authority, greater mortality than birth rate is explained by suspension or consolidation of newspapers in crowded and unproductive fields. New England has lost four dailies, New York four, middle west states nine, and the western states have thirteen less than a year ago. Gains have been heaviest in the southern states, while the middle Atlantic section has an increase of three.

Weekly and semi-weekly newspapers also seem to have reached their limit in numbers. The 1912 Annual names and describes 15,222 weeklies, as 40 less than in 1911, and 605 semi-weeklies, as compared with 617 in 1911.

The 1912 Annual marks its forty-fourth year, contains more than 1200 pages, describing 24,345 newspapers and periodicals, presents ten distinct items about each, including its circulation rating and gives 1910 census population for the 11,000 towns in which newspapers are published. Aeronauts, moving pictures and Esperanto are responsible for new lists of publications not in these subjects. There are over two hundred of these lists in the book just from the press. Religious publications number 865, agricultural journals total 483, and there are no less than 129 separate divisions of class and trade periodicals. Exponents of more than forty secret society orders are catalogued. Foreign language papers printed in thirty-four different forms of speech are described in a classification of their own.

These statistics are gathered from returns by the press of the country and sifted, verified and arranged by the publishers of this directory, who are engaged in such revision throughout the year. The importance of the newspaper publishing industry, likewise the development and rapid increase of advertising, is impressively illustrated in the magazine of this work.

President's Aunt Delia To Visit White House

MILBURY, Mass., Jan. 30.—President Taft's aunt, Miss Delia Torrey, will leave her home here this week for a visit of several weeks at the White House. Aunt Delia is nearly 90 and has done little traveling this winter on account of the extreme weather. She ventures on so long a trip as the Washington journey only in response to the earnest invitation of President and Mrs. Taft. Robert Taft will accompany her and the President himself has promised to escort her back in March.

Stanford University Professor Will Settle Dispute in South.

SAN BERNARDINO, Jan. 30.—Professor R. E. Swain of Stanford University was selected today by Judge Bledsoe of the superior court, to conduct a series of tests at the plant of the California National Bank building, on Shattuck avenue, whether the concern's dust eradicator is performing the function of clearing the atmosphere.

The engagements which professor Swain will conduct will be in connection with the contempt proceedings brought against the cement company by the orange growers of this county, to determine whether the concern's dust eradicator is performing the function of clearing the atmosphere.

The plant still is being operated, the company declaring that there is no violation of the injunction as the dust is being eradicated by the dust does not settle upon the orange trees.

Railroad Heads Clerk For Wall St., Says Flint

WASHINGTON, Jan. 30.—"The heads of the railroads of the United States, with the one exception of James J. Hill, are merely clerks for Wall street," said former United States Senator Flint of California today before the House interstate commerce committee. "Practically everyone but Hill has a board controlled by Wall street." Flint appeared to advocate that when a steamship line owned by railroads made rates for traffic combinations, it should be barred from the Panama canal. A government-owned steamship line was the only alternative, he said.

DIG WELL BELOW FIRST NATIONAL BUILDING

BERKLEY, Jan. 30.—To obtain a private water supply, a 70-foot well is being bored in the basement of the First National Bank building, on Shattuck avenue. The well has been dug to a depth of 23 feet and each day three feet of water is found at the bottom.

TO GIVE CARD PARTY.

Mr. and Mrs. W. A. Milner of 1147 Poplar street will be hosts at a card party to be given this evening at their home for the benefit of St. Andrew's church. The members of the "1912" Club have arranged the affair, which will be attended by the parishioners and friends. The committee assisting in perfecting plans for the game includes Mrs. J. A. Anderson, Mrs. Clarence H. Oliver, Mrs. W. A. Milner, Mrs. Frank Braswell and Mrs. William James.

FOR colic, cramp, in emergencies, hundreds of cases that you and everyone else know, there's nothing so good as a moderate quantity of good whiskey.

Duffy's Pure Malt Whiskey is the best whiskey made. The idea back of it has always been to make a whiskey so free from tannic acid and fusel oil—adulterants of any sort—that it could be used as a medicine when required.

Some people can't take whiskey moderately—they should never touch it.

Shakespeare lovers are afforded at the Bell theater this week a rare treat in the presentation of some of the more famous characters of the very best known of the Shakespearean portraiture, as follows: "A Night in Three Character Sketches" which are offered here as a special feature of the play, "The Merry Wives of Windsor" in the play from that name, one of the three impersonations acted by Mr. Stephens, has been played by him in the last three nights. In this act he is invited to an absolute imitation of Joseph Jefferson than any other actor now on the American stage impersonating this part.

K. Watson, "The Happy Traveller" is winning a name for himself as the ideal Hebrew monologist. His stories, songs and parodies are new and interesting every moment he is on the stage. He carries his audience with him every evening.

To any not familiar with the police station after dark, the skill, "A Night in Three Character Sketches" will be of decided interest. Together these are twice in the east, which is a well balanced one, Nellie Luckie and Thomas Yost, singers and dancers, secure a hit at each performance. Robert and Robert and Lillian are a good team of applause each time they appear. The Texas Tummy dancers surpass the previous efforts in this line to enlighten the local public on the intricacies of this style of Terpsichorean art.

GOOD ENUF KLUB AIRED IN COURT

Its Aims and Purposes Are Brought in Case of Young Ogden.

Assistant District Attorney Hynes this morning drew from Clinton Worden, in extra session No. 1, of the superior court, the admission that the Good Enuf Klub, for membership in which Frank M. Ogden was suspended from the Oakland high school, was a "training station" for the Geks, the high school fraternity that came under the ban of the state law prohibiting such organizations. Worden was the principal witness of the day in the trial of young Ogden's suit for reinstatement as a student in the high school and he testified that he was president and one of the organizers of the Good Enuf Klub. He appeared on the stand in the interest of Ogden and it was during his cross-examination that he admitted the alleged close affiliation of the Good Enuf Klub with the Geks.

Worden admitted that the club was organized for the covert purpose of perpetuating the Geks and that membership in the former was only extended to those who might be acceptable to the Geks if at any future time the law would permit it to come out in the open again. Worden maintained, however, that none of the meetings of the club were secret, declaring that anybody could attend them and that outsiders frequently did attend.

The witness admitted upon cross-examination that he was expelled from the high school shortly after the Good Enuf Klub was organized, for his fraternal activities, and when brought down again by Assistant District Attorney Hynes to splitting hairs over the relation of the club to the Geks, Worden boldly stated that in spite of the anti-fraternity law and the purposes of the club, with high school students it was "Once a Gek, always a Gek." This was the motto of those who belonged to the fraternity at the time it was legislated to cover and would allow any student to join the club, and the object was to secure only such material as would make good fraternal men.

GAVE PLEDGES. "Upon joining the club," Worden testified, "members pledged themselves to join the Geks whenever it became legal for them to do so."

Worden testified that at the time the Good Enuf Klub was organized, the constitution and bylaws were submitted to President Keyes of the high school in neat, typewritten form for his inspection. The witness said that the document went upon Keyes' desk at 9 o'clock one Friday morning. He returned to the office at 3 o'clock in the afternoon and found a note pinned to the door of his principal had inspected it in the meantime. The witness carried it away with him.

Other witnesses examined today for plaintiff were Albert and Bruce Hill, brother and sister, students who were also seeking reinstatement through superior court proceedings similar to those of Ogden, now prosecuting. There witnesses told of the meetings of the club and declared that there was absolutely nothing secret about them nor about the other features of the club.

TUBERCULOSIS HAS GRIP ON ALASKA

Fear That Inhabitants Will Be Wiped Out Spurs U. S. to Action.

WASHINGTON, Jan. 30.—Tuberculosis has its grip on nearly 50 per cent of the population of Alaska, according to the results of an investigation conducted for the Bureau of Education by Dr. M. H. Foster, former assistant surgeon of the Public Health and Marine hospital. In his report Dr. Foster declares that unless the ravages of this disease are checked by timely medical relief the white people, as well as the natives, of the territory will ultimately be wiped out.
According to Dr. Foster's estimates, 30 per cent of the present population of southeastern Alaska have suffered some time from tubercular trouble. Diseases of the eyes also are prevalent in a number of places, and Dr. Foster's recommendations include the establishment of a home for the destitute blind.
Armed with the facts, the Bureau of Education has renewed its efforts to secure the passage of a bill pending in Congress appropriating \$70,000 for the establishment of a sanitarium and additional hospitals and nurses.

URGES PLANTING OF FOREST TREES

Chief of Service Graves Shows Worth of Investment in Lands.

WASHINGTON, Jan. 30.—With the coming of spring Henry S. Graves, chief of the forest service, has issued a circular urging the planting of trees in the states from New England westward to Wisconsin and eastern Minnesota on large areas of land of very low productive value which have been swept by forest fires. From an economic point of view, says Graves, it is important that these lands should be put in a state of productive-ness.
"Extensive forest planting thus far has been discouraged by present methods of taxation," said Graves. "The true value of forest land and its rightful place among the permanent resources of the state are, however, becoming recognized, and an enlightened public sentiment is rapidly making this form of investment safe and profitable."
The policy of artificially establishing a forest cover on denuded watersheds for the protection of municipal water supplies is being followed by many of the larger towns and cities, and is deserving of more general adoption, according to Graves. Besides protecting the purity of the water, a forest cover materially reduces erosion and prevents silting up of reservoirs.

PORTLAND VISITED BY \$50,000 MORNING FIRE

PORTLAND, Ore., Jan. 30.—An overheated furnace in the basement of the Merchants' Trust building at Sixth and Washington streets, in this city, started a fire early this morning which caused an estimated damage of \$50,000 to building and tenants. The Merchants' Savings and Trust Company's bank, which occupies the corner tenement, escaped almost unscathed.

S. P. LAND COMPANY FILES ARTICLES

The Object of Corporation Is to Simplify Railway's Realty Transactions.

SAN FRANCISCO, Jan. 30.—To simplify the railroad's land transactions, President William Sproule, Vice-Presidents E. O. McCormick, E. E. Calvin and W. F. Her- rin and Land Commissioner E. R. McAlister of the Southern Pacific Company will this morning file with the Secretary of State articles of incorporation of the Southern Pacific Land Company. The organization is to have a capital stock of \$5,000,000, and each of the incorporators will have in his name \$1,000,000 worth of stock.
The move is another step taken by President Sproule to direct from San Francisco all matters pertaining to the company and to bring about a complete system of land management. Heretofore every land transaction in which the Southern Pacific was either the purchaser or seller had to be referred to the New York officials of the Harrison system. The delays incidental to correspondence of late in the Southern Pacific sale of Imperial valley and Eastern Nevada lands, and the organization of the new company was looked upon as about the only remedy. While the land company's capital stock amounts to but \$5,000,000, it will take over in its name property appraised at many times the amount.
The purposes of incorporation as set forth in the articles of incorporation are to purchase, acquire, own, hold, improve, cultivate, lease, mortgage, sell and convey real estate and the purchase and sale of water rights, aqueducts, wells and waterways for horticulture and agricultural purposes. The carrying on of horticulture and viticulture are also set forth as purposes of the corporation as well as the purchase, sale and holding of lumber, power and live stock.
The officials of the road maintain that the new company is organized merely for convenience and has nothing new to exploit or develop. Within a short time the company will purchase from the only Southern Pacific Company all of the latter's lands, transferring to the Southern Pacific Company small sums as the railroad company shall set upon the property to be transferred. It was estimated yesterday that approximately 300 deeds of sale, involving property worth many millions, will be made as soon as the land company is legally organized.

To Have Complexion That Men Admire

"A man may admit, with great sophistication, that powder and rouge are necessary aids to beauty," writes the Countess of Wenick, "yet deep in his heart he dreams of the woman whose loveliness needs no artificial touching up. Women who appreciate this, who give consideration to the masculine view point, avoid using anything that might indicate their beauty is not all their own."
"Such women in increasing number are acquiring the mercerized wax habit. By applying the wax at night as they would cold cream, washing it off in the morning, they secure, and maintain, entirely natural complexions. Their faces exhibit no evidence of having been beautified. Nothing is added to the old complexion—the latter, instead, is discarded. Mercerized wax, procurable at any drug store—an ounce will do—absorbs the dehydrated skin, gradually, almost imperceptibly. The fresh, clear, satiny underskin which appears, bears a healthy, youthful bloom not comparable with the fixed artificial color."

NEWSPAPERS ARE BECOMING FEWER

The Daily, Weekly and Semi-Weekly Journals of Country Go Into Discard.

PHILADELPHIA, Jan. 30.—That there are fewer newspapers in the United States than there were a year ago is revealed by figures presented in the American Newspaper Annual, published today. A year ago the number of daily papers was 2472; the 1912 annual lists thirteen less. New England has lost four dailies; New York four; the middle-west nine and the Western States thirteen. There were gains in the southern and middle-Atlantic sections.
Weekly and semi-weekly newspapers are also fewer in number. The 1912 annual names 16,229 weeklies, forty less than in 1911, and 605 semi-weekly as compared with 617 in 1911.

ADMITTS HE IS MAN WHO 'DIED'

Prisoner Held for Trial Confesses That True Name is August B. Edler.

SAN DIEGO, Jan. 30.—Admitting that his true name is August B. Edler and thus identifying himself as the man who "died" last November in Los Angeles, "Floyd Scott" was held for trial by United States Judge Wellborn under \$5000 bail. The preliminary hearing on a charge of falsely representing himself to be the owner of property in Salt Lake county, Utah, and misuse of the mails, was held before United States Commissioner H. T. Christian yesterday. The letter Edler wrote was addressed Hoffman Brothers Loan and Trust Company, Salt Lake City. The complaint was sworn to by Postoffice Inspector C. D. Lowe, who alleges that Scott or Edler did not own the property or have permission to sell it.

UNCLE SAM WATCHES BRITISH IN PACIFIC

WASHINGTON, Jan. 30.—Rumors that Great Britain intended to take possession of Palmyra Island (in reality a group of fifty islets) located about 500 miles southwest of Hawaii and almost in a direct line between Australia and the Panama canal, resulted in the subject being a matter of inquiry unofficially at the State Department yesterday. Officials possessed ignorance of any issue being raised as to the ownership of the island, but admitted the title was vague.
Palmyra Island was discovered in 1852 by an American ship master, who proclaimed it part of the kingdom of Hawaii in 1852, and it was annexed by Great Britain in 1858. The question is whether the British annexation canceled the prior Hawaiian title, for if it did not, Palmyra Island probably will be held to have been annexed to the United States in 1858.

TAMMANY DELEGATES TO SLEEP ABOARD BOATS

NEW YORK, Jan. 30.—The Tammany delegates to the National Democratic convention in Baltimore, unable to secure suitable hotel accommodations, hope to charter two or three large excursion steamers, which will anchor in the bay and provide sleeping quarters for the 2500 New York Democrats who have signified their intention of attending the gathering.
By sleeping on board the boats, the delegates will escape much of the mid-summer heat, and at the same time will have plenty of room. A great deal of money will be saved also. The Tammany men will carry from New York their own supply of food and drink.

GUN FROM MAINE FOR OAKLAND PARK

Senator Perkins Asks Secretary of Navy to Ornament City's Square.

WASHINGTON, Jan. 30.—Senator Perkins has asked the Secretary of the Navy to present to Oakland for ornamentation of a park there one of the guns from the Maine. Secretary Meyer said such a donation was impossible at this time, but may be made later. Senator Perkins acted in response to a cablegram from City Attorney Stetson of Oakland, who is now in Havana.

The expression occurs so many times in letters from sick women, "I was completely discouraged." And there is always good reason for the discouragement. Years of pain and suffering. Doctor after doctor tried in vain. Medicines doing no lasting good. It is no wonder that the woman feels

Question of Legal Ethics.

It looks as if criminal process is to be utilized in the case of S. Timothy, who shot to death J. J. Moore in San Mateo county, to compel Mrs. Moore to surrender her dower right in the estate of her band. The dying statement of Moore makes out a clear case of defense for Timothy. The only statement he made that is in dispute is the allegation that Mrs. Moore was in the car with Timothy when he stopped in front of the Moore residence.

That is a matter, however, that we do not propose to discuss in this article. What is worthy of attention is the statement of E. B. Clannahan, attorney for Mr. Moore in the divorce action recently brought by Judge Buck, that if Mrs. Moore contested the will of her band an effort would be made to bring before the court the revelation of her alleged relations with Timothy. Bear in mind this statement is made for publication before the contents of Moore's will has been made public or Mrs. Moore has announced an intention to institute a contest.

Apparently Mr. McClannahan's statement was made for the purpose of discrediting and intimidating the widow. It is a palpable attempt. It is an attempt to prejudice the case of the woman in the newspapers in advance of court proceedings. Is Timothy to be prosecuted to obtain settlement of a property dispute?

We remember that when the Moore case was pending in the courts, Mr. McClannahan made numerous statements for publication in the press derogatory to Mrs. Moore's chastity. In the trial he did not substantiate the charges, did not attempt to substantiate them, and Judge Buck denied the petition for divorce (asked for by both parties) on the ground that no infraction of marital obligation had been shown. This reduced the statements given to the press by McClannahan to the level of vicious scandal set afloat to influence public opinion in a case under judicial investigation. Now Mrs. Moore has fallen a victim to his own violence and jealousy, McClannahan has resumed his old tactics. It looks like an attempt to frighten the woman into letting her legal rights go by default.

As to the facts of the killing, or as to Mrs. Moore's conduct, we have no opinion to offer. Our criticism is directed at the effort to use newspaper publicity to influence judicial action and to intimidate a supposititious litigant. Presumably Mr. McClannahan drew Mrs. Moore's will and knowing its contents, realizes that Mrs. Moore is likely to contest it. Hence his declaration that an effort will be made to smirch the widow's reputation in case she institutes a contest is to be regarded as a threat and a reprehensible proceeding on the part of an attorney.

The Federation of Labor has repudiated and disowned Charles Haywood on the ground that he is a disturber and an enemy of the labor movement. Here is a good example to follow. Haywood ought to be out of every labor organization. He is an apostle of violence, revolution, and strives for war instead of peace. His aim is to precipitate a class war in this country instead of an equitable adjustment between labor and capital. Haywood is trying to overthrow the government which has given him shelter and the existing industrial system. He does not want to mend matters, but to make matters worse in the hope that a revolution will be precipitated.

Retiring County Physician.

After a service extending over a period of seventeen years, Dr. A. Clark has resigned his position as superintendent and resident physician of the County Infirmary, the Supervisors deeming it incompatible with his official duties for him to engage in private practice. Dr. Clark contended that the salary paid him by the county was inadequate compensation for a man of his acknowledged skill and professional ability, so he gave up his office rather than continue his private practice.

Without intending to criticize the Board of Supervisors or to disparage Dr. Clark's successor, THE TRIBUNE can say that the county has lost a most capable man in Dr. Clark. He is a skillful surgeon and physician, and as long as he had charge of the infirmary the indigent poor and sick had medical treatment of the very best quality. Money cannot buy better talent and skill than Dr. Clark received. In this respect the poor were served as well as the county.

Dr. Clark's retirement from the County Infirmary is directly due to his skill and standing in the medical profession. There was a large private demand for his services, and while his increasing private practice made larger demands on his time, the increased attendance at the County Infirmary called for still more unremitting attention to his official duties. But the services of men who command the talents of the expert diagnostician with the skill of an accomplished surgeon are in active demand. Dr. Clark can make a great deal more money in private practice, and do it amid more congenial surroundings, than he could in his position as resident physician of the infirmary. Nevertheless, it is to be regretted that circumstances have deprived the indigent sick of this county of medical service of the highest order. Theoretically the poor should receive as good treatment as anybody can get by paying for it, but it is seldom that a man so well qualified as Dr. Clark is found at the head of a county hospital.

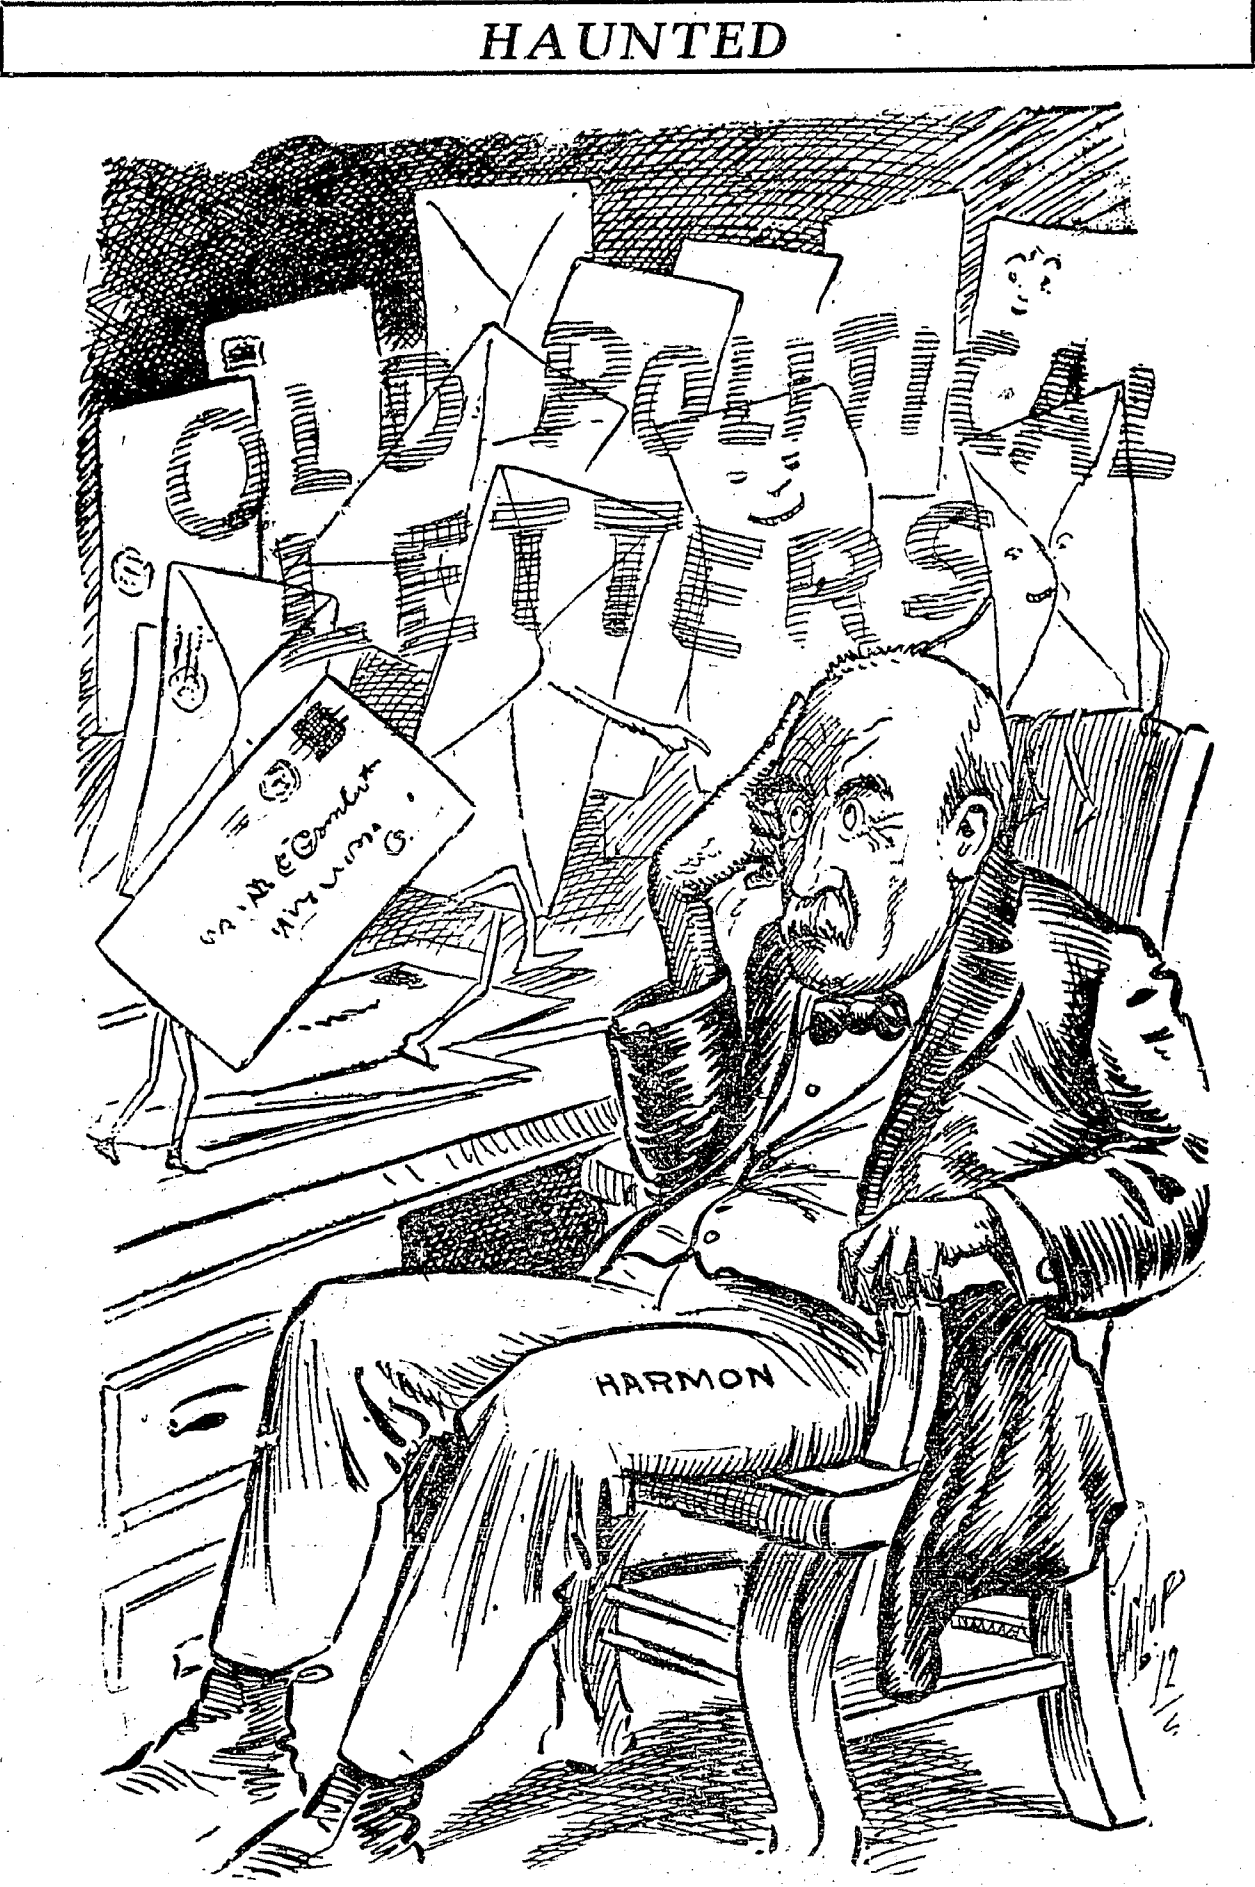

In saying this, however, there is no intent to impugn the capacity and professional skill of his successor, whoever he may be. We are confident that the Supervisors will try to fill the vacancy with a man who is at once a capable manager and a skillful physician. We hope they will be able to get a man equal to Dr. Clark, but few physicians of his skill, talent and experience are willing to step out of private practice into a salaried position subject to the mutations of politics. The seventeen years' experience Dr. Clark has had at the infirmary gave him a training that few men possess or are able to acquire.

The theory of the survival of the fittest is somewhat discredited by the discovery that chinch bugs are not killed by weather 12 degrees below zero.

Progress Toward Cuban Annexation.

Almost simultaneously with the threat of the United States to intervene in Cuba came the announcement that the Florida East Coast Railroad had been completed to Key West. There is a connection between the two events, but the coincidence of their coming together provokes speculation.

Virtually the United States exercises a protectorate over Cuba, and a vast number of Americans believe this relation will ultimately lead to annexation. The opening of rail communication to Key West will strengthen that belief. This place on the toe of the Florida peninsula is directly opposite Havana and commands the whole northern coast of Cuba. At this point the Florida channel is

only 120 miles wide, and a fast steamer can run from Key West to Havana in five or six hours. Hence it is quite likely that Key West will become the entrepot for trade and travel between the United States and the Queen of the Antilles. That anticipation prompted Henry M. Flagler to build his road over the string of coral islets connecting Key West with the mainland.

But what has this to do with annexation? many will be prompted to ask. A great deal when the situation is examined closely. The principal industry of Key West is the manufacture of cigars. Cuba furnishes the tobacco and nearly all the cigar-makers. The population of Key West is half Cuban. Now that rail communication with the mainland has been opened and the sea voyage shortened to a few hours, a great tide of travel will flow in and out of Cuba through Key West. As a result the relations between the United States and Cuba will become much more intimate. Cuba has been brought directly alongside our shores, so to speak, and will become a much closer object of interest to our people. There will be a growing desire on both sides of the channel that the political guardianship now exercised over the island republic be changed and a permanent political union established. If this country must maintain order and peace in Cuba and protect the island from foreign aggression, it might as well take her under our flag. The completion of the Florida East Coast Railroad to Key West brings that consummation in plainer view.

Ever since the foundation of this government, the acquisition of Cuba has been a hope with far seeing Americans. Thomas Jefferson cherished this hope, and pointed out how necessary the island was to the protection of the Gulf Coast and the mouths of the Mississippi river. This hope inspired the Ostend manifesto, and it kept alive and fanned the sentiment which finally drove the United States into war with Spain. The Ostend manifesto was plainly a declaration looking to ultimate annexation, and it was opposed only because it was regarded as a movement to extend slavery. But the abolition of slavery in both the United States and Cuba removed that objection, and the war with Spain liberated Cuba and placed her under a United States protectorate.

Since then events have moved rapidly in the direction of annexation. The United States is to establish a great naval station at Guantanamo on the eastern end of the island, and once since Cuba's independence has been established took summary charge of the republic's affairs to avert civil war. Again the threat of intervention has been interposed to prevent strife and disorder. The railway extension to Key West brings Havana almost under the guns of the American mainland. It is a step in the evolution that is surely working for the annexation of the island, which will probably come in the next generation.

GOTHAM'S TRAFFIC MASSACRE

In Greater New York last year automobiles, trolley cars and horse-drawn vehicles killed 427 human beings, of whom 183 were children under the age of 17. In London during 1909, the latest year for which statistics are available, the number of deaths caused by vehicle traffic of all descriptions in the Metropolitan and City police districts was 322, of which 115 were deaths of children. Thus in the British capital, among 2,000,000 more people than live in New York, 105 fewer lives were destroyed by vehicles than here.

The contrasting figures show the essential criminality of the slaughter that goes on in the streets of New York. While in New York automobiles and trolley cars were responsible for 255 deaths, in London, with its larger population, motor vehicles,

But Science Is Getting Consumption Under Control, All the Same.

When you read that 150,000 persons die in this country every year of consumption, don't think that the disease is getting the better of curative measures.

The death rate from consumption, still high enough, goodness knows, has been cut in half in two generations.

Today we know how to handle consumption.

With fresh air, cleanliness, diet and Ozomulsion, we can get the death rate away down and keep it down.

Besides forming fat and improving the condition of the blood, Ozomulsion strengthens the nervous and muscular systems.

Its value as a medicinal food entitles it to a place of honor on the bill of fare, not merely of every consumptive, but of everyone whose waning energy and wasting flesh give warning that tuberculosis is near.

Taste and digestion, which rebel against many other fat-forming foods, welcome Ozomulsion.

SAMPLE BOTTLE FREE BY MAIL.—The person who seeks health and strength for themselves, children, relatives or friends, may experience the life-giving properties of this exclusive Norway gold medal ozonized cod liver oil medicinal food emulsion—as well as to know Ozomulsion is a certainty—in being most palatable and easy to take—a generous 3-oz. bottle will be sent by mail to those who send addresses by postcard or letters to Ozomulsion, 548 Pearl street, New York.

HAYWARD PEOPLE TO HOLD MEETING

Will Discuss Matter of Calling Another High School Bond Election.

HAYWARD, Jan. 30.—A meeting of the board of school trustees and the committee appointed by William Angus to co-operate with that body will meet tonight to discuss what course to take in the proposed calling of a third school bond election for the establishment of a new high school.

The mass meeting of the voters from the eleven school districts comprising the Union district will be held next Saturday and the board will then announce the course it considers best relative to the joining of San Leandro with the other districts. The body, however, will be guided solely by the wishes of the voters in the matter of calling another election.

NILES TO CALL SCHOOL BOND ELECTION SOON

NILES, Jan. 30.—Following the sale of the Niles grammar school and site it is proposed to call a bond election for \$20,000 for the building of a new school and the purchase of a site.

A site for the main new building will be selected on the north side of Alameda creek. In view of the extreme dryness of the younger pupils crossing many railroad tracks, which parallel the creek, a ward school will be established on the other side for the lower grades.

'EAST LYNN' TO BE SHOWN AT CAMERA

Two Thousand Feet in Wonderful Film to Be Displayed at Theater.

The world's greatest and most popular melodramatic play, East Lynne, in two reels of 2000 feet, will be shown at Oakland's busy photoplay theater, the Camera, for two days, Thursday and Friday, next. The story, too well known to need repetition, will be a revelation and surprise of photoplay grandeur and magnificence, far surpassing as it does the best stage production ever attempted.

James Crews who caused much favorable comment by his superior acting in Dr. Jekyll and Mr. Hyde, takes the part of Archibald Carlyle to perfection. Miss Margaret Snow who portrayed "She" in the photoplay of the same name is admirable as Lady Isabelle Vane, and many other popular and well known artists supported by the entire Thalhouser stock company will tend to make this the most notable photoplay yet produced.

All other pictures will be changed each day and will be accompanied by appropriately selected music or the new musical sensation recently installed in the Camera, "The Mottotone."

The program at the Camera theater today is an exceptionally fine one consisting of five first run full reels of very fine pictures some of which will follow an impromptu production, "The Word of a Man," with the popular photoplayer, King Baggett, in the title role, an Edison picture, a quartered and Constantine, a Rex art production, "A Safe Asylum," a comedy of errors that will be a real laugh riot.

There are many others of note on today's program. The pictures at the Camera are changed every day and at all periods—a full hour and a half show is given.

Legal separation from her husband was obtained at Devils Lake in 1908.

\$500,000 ASPHALTUM PLANT IS STARTED

RICHMOND, Jan. 30.—The Standard Oil Company has just started up its \$500,000 asphaltum plant at its refinery here and will in future give more attention to the manufacture of that product, which in turn has necessitated the employment of a large number of workmen at this point. This continuance of the plant here, with the bi-monthly pay days to the small army of its employees, is an added prime factor in Richmond's prosperity. The company has also just completed a pipe line to the Lost Hills oil fields, in the south, and will have today the longest pipe line now under construction from the Kern river fields to Richmond. New storage tanks continue to spread out all over the adjacent hills, and the big tankers loaded with oil for foreign ports from the company's docks here are constantly becoming more numerous.

WARREN WOLVERINE IS NEARING SUCCESS IN GRIND

Four-Thousand-Mile Mark Reached in an Effort to Lower Present 11,000-Mile Record

The Warren "Wolverine" at 1 o'clock today had passed the 3850 mile mark in its effort to lower the world's non-stop record. The clear weather of the last few days has dried the roads up some extent. However, the contestants still encounter many rough stretches on the route from this city to San Jose and return. There doesn't seem a chance that a misfortune will arise of great enough magnitude to put the car out of the running on its long grind.

As the days pass, the drivers and observers are becoming more seasoned and have accustomed themselves to the slow, steady, but consistent pace which is being followed. Even the observers are becoming interested to the extent that each is sanguine of the success of the contestants.

The five tires which are equipped on the car have yet to meet with their first puncture. Their record in this run up to date has been wonderful. Thirty-five hundred miles is the guarantee for the life of any tire and within this period punctures and blowouts may be expected. The feat of the tires or the car going away over this mark without any difficulty is, therefore, worthy of mention.

WE NEEDED MORE COIN, SAYS NAPA OFFICIAL

Likewise More Men to Keep Tab on Employees, Adds Dr. Hatch.

SACRAMENTO, Jan. 30.—That the State lunacy commission is supposed to keep a check on the State institutions for the insane and see that they are properly managed for the best interests of the patients and the State alike, but that apparently it has not done so in the case of the Napa hospital, which has been found to be mismanaged, was the admission of the secretary of the commission.

Dr. Hatch admitted that until the report of the board of control accounts was made he had not known that anything wrong existed at the Napa asylum. The State lunacy commission had experted the books of Superintendent Stone and his secretary and found everything correct, but it had not experted the books of the steward, as was contemplated in the lunacy act.

MORE MEN NEEDED, HE SAYS.
His explanation of the failure to keep a check on the steward was that it would necessitate the hiring of several accountants who would have to work six weeks over the books to expert them, and there were no means of employing such men.

"I don't see how the commission could do this management at the asylum without looking over the steward's books, and we have no force with which to do that," said Dr. Hatch.

"It is true that every claim allowed by the board of managers of the asylum passes through my hands and also through the hands of the board of control, and I am not a party to the board's books, and we have no force with which to do that," said Dr. Hatch.

"I am supposed under the law to visit the hospitals at least twice a year, but I have visited them often more than that and have looked over the situation. I know about the women patients being forced to sleep on the floor in one of the wards, and that the lavatories in the working ward needed repairing and the floors fixing."

APPROPRIATION WANTED.
"Those conditions are not new, for we have been working on a plan to correct them. We intended to place more women in the cottages. As to the working ward conditions, they have been remedied long ago and an appropriation which the last legislature turned down been granted."

"The commission is supposed to examine the books once a year. The only books we have examined are those of the superintendent and secretary. I would keep a man or a couple of men busy the year round to expert the steward's accounts of all the hospitals; and then, if the books were doctored, the discrepancy possible could not be found. I believe a board of managers could do this."

"The steward each year furnishes me with an estimate of the supplies needed, and this estimate is placed in the hands of the board of control, or board of examiners, as the case may be."

"MERELY LAX IN METHODS."
"The board approves the estimate, which virtually gives the hospital managers the right to advertise for bids and to have estimates in beef and asked that they be cut down. Several times during the year I told the steward to cut down on his meat supply, and he did so. Bush was not dishonest, I believe, but merely lax in his methods."

"The lunacy commission is comprised of the Governor, secretary of state, health and myself. We have no stated meeting time or place and do not meet very often."

Emmet Phillips, chairman of the Napa State hospital board of managers, called a meeting of the board to be held Wednesday night at Napa. The charges against Dr. Emmet E. Stone will be the subject taken up. A success to Doctor Stone probably will be appointed.

The position of superintendent, according to Phillips, is held temporarily by Dr. D. M. Matthews, recently brought from New York, where he was connected with a number of the large hospitals. Whether or not he will be elected to Stone's place is not known.

BRANDED AS LIES.
J. F. Neylan of the board of control, who conducted the investigation into the affairs of the hospital and to whom the resignations of Managers Meacham, Steves and Belcher were given, has given out a statement branding as "lies" all the statements Doctor Stone has made relative to alleged promised immunity from prosecution.

As far as the possible criminal prosecution of Doctor Stone for his confessed embezzlement of the State funds at the hospital is concerned Neylan said:

"The matter is in the hands of the Governor. It is up to him and the district attorney, Napa county, to start anything like that. I can not start it, nor could I possibly prevent it."

FUGITIVE ARRESTED.
MARTINEZ, Jan. 30.—Albertos, Bol-lucet, accused of having embezzled \$500 from Japanese farmers of the Island districts near Antioch, has been caught and placed under arrest in Texas. He will be brought here for trial.

URGES WOMEN TO TAKE INTEREST IN CITY

Miss Helen Todd Tells of Fair Sex and Their Part in Industry.

"Let us get together and form a definite plan to carry on civic work," urged Miss Helen Todd, formerly factory inspector of the state of Illinois, in her address "Women in Industry," delivered yesterday afternoon before the members of the civic section of the Young Women's Christian Association in the administration building, Fourteenth and Castro streets. The speaker, who was introduced by Mrs. F. C. Turner, wife of the commissioner of public health and safety, made an appeal for social solidarity, which she stated could be brought about by co-operation. She suggested that a committee of forty women of this city be formed as an auxiliary to the San Francisco Civic League. Miss Todd stated that the San Francisco society will soon outline whereby they will be able to come in contact with the great issues of the hour.

"The people of the east are watching the movements of the California men and women. They want to know about the methods of the Californians. In fact, the world is looking to California to lead the way in the future."

"The people of the east are watching the movements of the California men and women. They want to know about the methods of the Californians. In fact, the world is looking to California to lead the way in the future."

"I am a little afraid when I see how easy you women of California get what you go after. I am afraid you will take this opportunity which is before you as you take your climate."

"HUMAN COGS."
In an interesting manner Miss Todd drew a picture of women and children in the midst of war and the east and declared that in the great industrial centers they were human cogs. She also gave facts portraying the strenuous battle for existence in the industrial world.

"If a woman is to be to her husband and children those things which she ought to be," asserted Miss Todd, "she must possess herself of a civic intelligence and be familiar with things that are going on outside her own home and neighborhood."

"We pay in human life for our material products. Woman is forced into the industrial field, and the most helpless thing in the world is the unorganized womanhood, which must take what it can earn or starve. The price that we pay in industrial tolls is shown in the great number of delinquent children, the increase of the delinquents of the red-light district, and the total unfitting of women for motherhood. The protected woman must take up the problem of her unprotected sister, and must see to it that the latter has better pay, better hours and healthful places in which to work."

"The woman who has not a civic consciousness is not at present regarded as either educated or womanly, and she must be educated further in the knowledge of how the things that she wears and eats are produced, so that she will not buy things paid for by the degeneration of her sex, any more than she would dip her hands in its blood."

The California eight-hour law for working women was commended by Miss Todd, in contradistinction to the ten-hour law in force in the east, which she said was only won after a hard fight and which even now exempts stores.

A series of seven lectures and book reviews have been arranged by Mrs. Fred C. Turner, who is in charge of the civic section, which the public is invited to join as members. The second discussion will take place Friday, February 5, when the first half of Olive Schreiner's book, "Woman and Labor," will be reviewed. Following the meetings devoted to this woman's writings the work of Jane Addams will be taken up.

TO RECEIVE \$200,000 FOR LOSS OF HUSBAND
NEW YORK, Jan. 30.—Mrs. Bessie Chapman Faulkner Pierce, who married Roy E. Pierce, son of H. Clay Pierce, the oil magnate, secretly in November, 1910, has been notified that the marriage had been annulled. At the same time she would receive \$200,000 from her husband's family in lieu of any and all claims she might have on him.

The suit for annulment was brought by A. H. F. Seegar, as the next best friend of young Pierce. The grounds put forward told of irresponsibility on the part of the husband.

The defendant put in an answer, but withdrew it before the hearing. She said at one time that no financial inducements had been made for her not to defend the suit.

Scientific Wrinkle Remover Easily Made
(From Ladies' Favorite Magazine.)
A few dermatologists have long held the secret that a certain product, known to the drug trade as saxolite, has the property of producing a solution of instantly reducing wrinkles. Anyone can readily make this same solution by dissolving an ounce of powdered saxolite in a half pint of witch hazel. Bathe the face in this and note the immediate transformation. The skin becomes smoother, firmer, deeper wrinkles at once begin to smooth out. This action will of course also reduce hanging cheeks or double chin.

When the hands show signs of aging, the skin becoming coarse, cracked and flabby, bathe them in the solution. Since the recent publication of this formula, men and women all over the country have taken advantage of the information, according to reports, with most satisfactory results.

BROADWAY BREAKS OAKLAND RECORDS

Opening Bill of New Policy Draws Great Crowds to Local Theater.

The opening bill at the Broadway theater of the new policy of vaudeville broke all previous records for attendance both yesterday and Sunday. The comments of the public lucky enough to secure seats were flattering and pleasing to the management, bearing a promise for future popularity of the new Broadway.

The opening bill, which closes tonight allowing a complete change tomorrow, consists of five snappy acts and five reels of exclusive motion pictures, making an excellent program.

Considering the price, ten cents all for seats, the amusement can not be equal for money value in any other city in America. Manager Smith states that the opening bill is no exception in quality but will be equalled each change.

For tomorrow the new bill will consist of Walsh and Maitland, snappy comedians and contortionists; Bisbee and Conley, western larriat experts; Hayes Sisters, character singers and dancers; Elizabeth Meyers, dainty comedienne; Wetherford and Brierly, harmony singers, whistlers and imitators and five reels of first-time-shown-in-Oakland pictures. The Broadway now changes each Wednesday and Sunday and at no time will an act be seen for more than a half week.

GAS! GAS! GAS!

All the time my stomach is full of gas! whether I die or not, whether my stomach is empty or full, either morning, noon or night, either before or after eating. It's Gas, Gas, Gas in my stomach.

That's the story of so many people. Go to the nearest drugstore and get a 50c bottle of BAALEMAN'S GAS TABLETS, made especially for the permanent cure of Gas, and get permanently cured in a short time.

Such trouble is not true Dyspepsia; no, it's a nervous, irritable stomach and requires NO dyspepsia preparations. Such a stomach requires a special remedy for Gas, and the only special remedy in America made for this is BAALEMAN'S GAS TABLETS.

Get a bottle right now and you will thank us for the suggestion later on. These peculiar tablets are sold for 50c a bottle by nearly every drugstore. If not in stock tell him to get them for you from his wholesaler, or send 50c in silver stamps or money order to Hahemann Pharmacy, 334 Sutter st., San Francisco.

YAQUI "REDS" TO BE WIPED OUT BY MADERO

EL PASO, Tex., Jan. 30.—Advices from Guaymas, in the state of Sonora, say that General B. J. Viljoen has been authorized by President Madero to begin a campaign against the lawless element of the Yaqui Indian tribe.

Several powerful Yaqui chiefs have offered their services to the government in subduing the rebels, and a battalion of Pima Indians also will be formed. A majority of the Yaquis have refused to accede to the government's peace terms.

"I'LL NOT RESIGN," VOWS POLICE CHIEF WHITE

RAKES STEEL TRUST OVER HOT COALS

Brandeis Declares Employees Earn Less Than Bare Living Wages.

Trust Scored for "Grinding Down Workmen to Present Condition."

WASHINGTON, Jan. 30.—That 65 per cent of the employees of the United States Steel Corporation in the Pittsburgh district earn less than the actual cost of subsistence of the average American family in Pittsburgh was a calculation made at the steel trust hearing today by Louis D. Brandeis.

"The Associated Charities of Pittsburgh have computed the cost of bare existence of a family of a husband, a wife and three children in the city at \$7.68 a year," he said. "By working twelve hours a day, 365 days a year, 65 per cent of the steel workers there earn \$1.50 less than the amount actually required for the bare cost of living."

"How about other industries, which pay an average of 16 cents an hour?" asked Attorney D. A. Reed for the steel corporation.

"We are not here to extol your neighbors. They are not under investigation, you are," retorted Brandeis.

He declared that in ten years the steel corporation had taken from the American people \$650,000,000 in excess of a liberal profit on its investment.

"This enormous profit," he said, "has been used to grind down its employees to the misery of their present condition."

TWO MEN AND ONE GUN IN HOLDUP

Combination Relieves Telegraph Ave. Man of Thirty-two Dollars.

Two masked men, one armed with a revolver, last night robbed Charles H. Burkhardt of 2219 Telegraph avenue as he was on his way home, taking \$32 from him. It is believed the two bandits are the men who have been operating in Oakland and San Francisco for the past three weeks, robbing pedestrians and holding up saloons.

Burkhardt was returning to his home shortly before 10 o'clock when he was accosted at Grove street, between Twenty-sixth and Twenty-seventh streets, by two men. Owing to the darkness Burkhardt failed at first to notice that the men were masked, and it was only when he received the sharp command to throw up his hands and perceived the muzzle of a revolver thrust into his face.

Burkhardt obeyed, and while the taller of the two robbers kept the revolver leveled at his head, the other searched his pockets. A purse containing \$32 was taken. After warning their victim to make no outcry, the footpads disappeared in the darkness. Burkhardt notified the police, but no trace of the robbers was discovered.

While St. Germain of 1001 Fifth street was engaged in serving one of two customers who had entered his store, last evening, the second went to the rear of the store and stole a blue cloth bag containing \$130, which had been secreted on a shelf. The stranger concealed the bag of gold under his coat and the two men left the store together. It was not until later that Guindini discovered that he had been robbed. A description of the thieves has been given to the police. It is thought possible they may be the footpads who later held up Burkhardt.

Joseph Bell of 1415 Sixteenth street complained to the police last night that burglars had forced an entrance to his place by the rear door and had looted the residence. Jewelry and clothing valued at \$75 were taken.

Miss Leora Kingsbury of 150 Eleventh street was robbed by pickpockets while on board a street car, a watch valued at \$20 being taken. Oscar Sellers of 1069 Scenic avenue reports the theft of plumbing and fixtures valued at \$100 from his home at 561 and 563 Fifty-ninth street.

\$100,000 ITALIAN VILLA TO BE ERECTED IN BERKELEY HILLS

BEAUTIFUL GARDENS TO SURROUND JOHN H. SPRING HOME

Villa to be erected by John Spring at Thousand Oaks. This will be one of the most artistic homes in California. The architect is John Hudson Thomas.

Palace of Snow White to Be Set Among Rarest of Trees and Shrubs

Gathered From All Parts of the Orient and Occident

BERKELEY, Jan. 30.—The concrete age in residence as well as business-house architecture will be artistically exemplified by a monumental Italian villa costing approximately \$100,000, to be erected this spring in the Thousand Oaks hills, north of this city, by John H. Spring, the Oakland capitalist, whose home for many years has been in Fruitvale.

Built of reinforced concrete, the virgin whiteness of the mansion will be admired from great distances on and around the bay and it will stand for decades as one of the most magnificent showplaces of Berkeley. In the novelty of its architecture it will long be without a rival.

In designing the villa, Architect John Hudson Thomas of this city has planned a scheme of terraces, suggested by those of the Achilleon, the palace of the late Empress Elizabeth of Austria, on the island of Corfu.

IN TWENTY-ACRE GROUNDS.
The dwelling, with its terraces, will cover an area of ground 200 feet square, located in the center of a twenty-acre estate, facing Cerrito hill, which rises from the bay shore, and commanding wonderful vistas of the upper bay.

For more than two years the work of preparing a garden of remarkable beauty and rareness as a setting for the mansion, has been in progress. The grounds, aside from the palatial dwelling which is to complete their beauty, will soon become one of the famous private wonderlands of the bay region, on account of their commanding location and wealth of flowers and plants.

TRIUMPH IS A FEATURE.
In the center of the villa will be

an atrium 34 feet square, extending to the roof and covered with a skylight 30 feet above the main floor. Four immense Doric columns will carry the balconies of the second floor, which form the second-story hall, and into which the bedrooms will open, and continue up to the entablature on which will rest the glass panel of the roof.

In the center of the atrium will be an Italian fountain, urns, vases and shrubbery. From the rear will start a grand stairway, taking the full width between the columns and rising to a point midway between floors and thence separating on either side to make the remaining height to the balconies. From any point in this upper hall can be seen the fountain below and the glass upper panel, the four columns and the balustrades breaking between.

Charming vistas and impressive simplicity will form the keynote of the interior.

WIDE TERRACES.
There will be approaches from the front and rear of the villa. On the west side will be the extensive terraces, making a gradual descent and extending across the entire front of the building.

The terraces will be of cement-covered concrete, confined by low balustrades and buttresses of concrete. In the rear of the house will be the porte cochere and wheelway entrance leading to the upper road, which winds through the Spring estate from the south to the north gate.

The gardens and villa will form a composite picture of harmonious beauty. Plumbing and housekeeping luxuries will be in keeping with the plan to construct the residence with comfort as well as beauty in view. Every

bedroom will have its private bath. All the heating will come from a plant situated apart from the main building, disseminating heat from concealed radiators within the walls.

The garden, which is now a glorious mass of color on the hillside, will contain as a feature an orchard of dwarf fruit trees from Fresno, not more than seven feet high. They are now in full bearing. There is a large bed of rare Belgian rhododendrons, planted from a carload shipment from the European country.

A WONDER GARDEN.
About 30,000 trees and shrubs have been set out in groups or around the boundaries of the estate and 300,000 herbaceous bedding plants and hardy perennials are arranged in the garden. In one bed are to be found 20,000 tulips, which came in a special shipment from Holland. The gardens contain many beautiful specimen trees of the evergreen variety, such as gnarled spruce from Norway, blue spruce from Colorado, Italian cypress which flank the entrance gates and Irish yews, for which Spring has shown a decided fondness.

A tennis court is banked with climbing pink geraniums, and a swimming pool coily set in a slight depression is surrounded by flowers. A catwalk about sixty feet high, in the midst of Australian fern trees, carries water down to supply the pool at the south end of the gardens.

A Japanese section of the garden, two acres in extent, contains all the choicest flowering fruits, ornamental trees, bamboos and rare varieties of Japanese conifers.

Concrete has been decided upon as a more appropriate material for the villa than marble, which Spring once contemplated using in its construction.

'Drug Store Bandit' Suspect to Do Time
Found Guilty of Robbing a Japanese Cafe in Los Angeles.

LOS ANGELES, Jan. 30.—N. S. Bateman, said to have been the "drug store" bandit who terrorized San Francisco a year ago, was found guilty of robbery by a jury in Judge Paul McCormick's court yesterday and will be sentenced tomorrow.

Bateman was charged with having robbed a Japanese restaurant here, Oscar Brooks. Bateman's alleged companion in crime, who was arrested with him, pleaded guilty and was sent to San Quentin for three years.

NOTICE CHANGE IN JAPAN CURRENT

Captain Johnson of the Alameda Observes Northward Set of Flow.

Temperature Is Five Degrees Warmer Than Ever Observed During Winter.

SEATTLE, Jan. 30.—Two more steamers, the Alameda and the Bertha, which arrived at Cordova yesterday, report a change in the current encountered between Cape Flattery and Cape St. Elias, confirming the observation of Captain J. C. Hunter of the Northwestern.

"On our last trip I noticed the Alameda was set about forty miles ahead of our log," said Captain Johnson of the Alameda, according to cable advice. "Although I considered this strange, I thought some mistake might have been made in the log or in navigation, but careful observations were made on this voyage and they corresponded very closely to the former observations. The first change was noticed off the Queen Charlotte Islands, and the northward set of the current increased in strength steadily thereafter."

"Another change in the action of the sea which I have noticed all this winter has been heavy swells from the southwest."

"The log of the Alameda shows a change in the temperature of the water, which is 4 to 5 degrees warmer than any other time this winter."

DIRECTORS OF U. S. STEEL CO. MEET

Will Take Action on Common and Preferred Stocks Dividends.

Estimate of the Corporation's Earnings for Quarter \$25,000,000.

NEW YORK, Jan. 30.—Directors of the United States Steel Corporation met today to take action on the preferred and common dividends and to receive the report for the fourth quarter of 1911, which will be issued after the meeting. It is virtually certain the regular common stock dividend of 14 per cent will be declared.

Unusual interest attaches to the going to earnings for the last quarter of last year. The steel and iron industry, as is well known, is passing through a period of much uncertainty and most finished products are now selling at the lowest prices in some years. It is expected that the report will show a decline in demand for December compared with the month immediately preceding.

Estimates of the corporation's earnings for the last quarter of 1911 range from \$22,000,000 to \$25,000,000, with some less favorable forecasts. In the first three quarters of 1910 the steel corporation charged off its report from its surplus \$30,000,000, with an additional appropriation at the end of the fourth quarter of \$6,000,000, of which \$1,000,000 went for mining royalties.

In the first three quarters of 1911 no appropriations of any character were made.

AFTER HIS SCALP

The Head of San Francisco Department Requested to Step Down.

Charges to Be Filed Against Him Unless He Quits Post Willingly.

SAN FRANCISCO, Jan. 30.—Chief of Police David Augustus White, following a request for his resignation made yesterday, declared today that he would resist all efforts to oust him from his official position.

"I'll fight," he said. "I am not going to give up a \$4000 job without making an effort to hold it."

When Jesse B. Cook, president of the board of police commissioners, asked White to resign yesterday it was generally understood that the police chief would step down without protest to make way for an officer of longer experience. Today, however, White shows fight, and in that event it is understood that charges will be preferred against him, although the exact nature of these accusations has not been made public.

White declared this morning that he had been asked to resign, although he admitted that he had had an interview with Cook. According to Cook, White at Cook's request visited Cook yesterday in the latter's office in the safe deposit department of the Savings Union Bank.

RESIGNATION REQUESTED.

"Chief," said Cook, after they had shaken hands, "you are not a police officer. You have done your best as head of the department. I believe you are absolutely honest and sincere. I believe you have gone ahead to the best of your ability; but we feel that what is needed is a man from within the department who knows every angle of the work, and it is the wish of Mayor Rolph and the board that you hand us your resignation."

Chief White was not abashed, and merely replied that he would think the matter over, after which, with the utmost good-feeling, he left in the police automobile. This morning, Cook, when interviewed regarding his conversation with the head of the department, freely admitted it and explained his views.

"It is quite true that I asked Chief White to resign and told him that we wanted a man from the department," asserted the commissioner. "White is a good man, but he doesn't know the police. I want a chief of police who has gone all through the grade, and who has not had the experience of a week, or a month, or a year, but of many years in the police department of this city. There has got to be a change, and for that reason we want a change."

SUPPOSE HE REFUSES?

"Suppose that Chief White refuses to resign," he was asked.

"I do not know what would happen then," was the reply. "I can't forecast any such situation."

"How about his successor as head of the department?"

"All that I can say is that he will be an officer from the department itself."

"Then you yourself would not consider the post?"

"Not under any condition. Commissioner Woods wanted me to take it, but I told him that I would not. I have had it on, and I am glad that I was at the head of the department, but I think it best not to take it again."

"Whom do you think that the selection is likely to fall upon?"

"That I could not say, as I might make a man, who would not be satisfactory to the other commissioners, and each of them may have in mind some certain officer."

STRONG CANDIDATES.

The choice lies between three men within the department, with a possibility of a fourth looming up in the background. Three who are in the running and are mentioned in no uncertain terms are Captain Marcellus Anderson, for years commander of the Mission district in which Mayor Rolph lives; Lieutenant Duncan Mathewson, captain of the traffic squad and one of the most efficient officers in the department; and Sergeant Stephen Runner of the Bush-street station, who several times been night captain of detectives and who, when detective-sergeant, made some of the most notable captures on the record, for one of which he was presented with a diamond set gold star by a large jewelry firm in this city.

Chief White was an emergency chief. Former Chief Seymour had come under the displeasure of the McCarty administration and was scheduled for removal. He refused to resign and White was appointed. It is understood that White's resignation was the hands of Mayor Rolph, but his successor could never be agreed upon by the commissioners and the mayor during the remainder of the term of the last administration.

When White took office, he and Seymour, both claiming to be chief, the latter giving up the fight only after a strenuous battle in the courts.

FORMER ILLINOIS SOLON CALLED IN LORIMER CASE

William A. Kannally to Take Stand After Accused Man Is Excused

WASHINGTON, Jan. 30.—William A. Kannally, a member of the Illinois Legislature at the time Senator Lorimer was elected, will be called as a witness before the Senate investigating committee today at the close of Lorimer's cross-examination. It is said the committee's process server had a long search to reach Kannally with a subpoena.

When the hearing was resumed today, Senator Lorimer continued, under cross-examination by Attorney Marble for the committee. The questioning related to Lorimer's version of political conditions in Illinois in 1898 and 1899, which he claims made him the only Republican candidate commanding enough Democratic votes to be elected.

Senator Lorimer told of several incidents which he construed as evidence of hostility toward him on the part of the Chicago Tribune and the McCormick family.

In 1895, he said, after having re-

fused to support Joseph Medill in a political plan, he heard Medill had resolved to take control of the Republican party in Illinois from him. In 1899, when he did not support Medill's candidates for drainage trustees, he understood Medill had threatened to take vengeance on him.

On a trip down the Mississippi in 1909, he said, it was general gossip that Medill McCormick was to tell what he was going to do to Lorimer. Attorney Marble read editorials from the Tribune favorable to Lorimer when he ran for clerk of a court in 1892 and supporting him for Congress in 1894. Senator Lorimer referred to its "left-handed support."

Failure of the Tribune to attack him in 1896, when he was a candidate for Congress, was explained this way:

"I considered that Robert Patterson thought that was a way to pay me for electing him a delegate to the national convention."

Advocates a Curfew Law for Husbands

Former Governor of North Carolina Would Have 'Em Punch Clock.

CHICAGO, Jan. 30.—A curfew law for husbands was advocated by Robert B. Glenn, former governor of North Carolina, in a speech here last night on the subject "The Country's Need of Sterling Men and Women."

"The man who stays away from his family at night is the most contemptible creature on earth," he said. "I wish we had a curfew law for husband—a law that would make every husband stay at home from 8 o'clock in the evening until 6 o'clock the next morning. A man's place is at home with his wife, helping to train the children in the way they should go."

FOUR SEEK REWARD OFFERED BY WIDOW

SACRAMENTO, Jan. 30.—The widow of William H. Newman of Stockton, whose husband was killed by Zolite Clement, the bandit under arrest here, placed \$1000 in the hands of Attorney A. L. Levinsky of Stockton to be paid as reward to those who captured Clement.

There are four claimants for shares in this reward. The first one is Luke Harris, whose nerve in securing a shotgun and wounding Clement resulted in his capture. Charles Hogan, the youth who found the wounded bandit and called the police, is the second, the others being Patrolmen Thielson and Vogel, who made the arrest.

PROMINENT SAN LEANDRO MAN HAS PASSED AWAY

SAN LEANDRO, Jan. 30.—Thomas J. Martin, son of L. J. Martin, grand secretary of the U. P. E. C., died last night at his home on San Leandro avenue. The funeral will be held from St. Leander church tomorrow morning. The body will be buried at St. Joseph's cemetery in Hayward. Martin was a member of the U. P. E. C. and a native of San Leandro. He leaves a wife and three small children. He was 27 years of age.

Continue Hearing Of Eugene Schmitz

District Attorney to File Reply to Application for Writ of Prohibition.

SAN FRANCISCO, Jan. 30.—On motion of the district attorney, who desires to file a reply to the application for a writ of prohibition preventing Superior Judge Lawlor from hearing the case of Eugene E. Schmitz, the District Court of Appeals today continued the hearing until Thursday morning.

Schmitz appeared also in Judge Lawlor's court, where the trial was to have been resumed, but owing to the alternative writ issued by the highest tribunal a continuance was had until Friday. All of the other so-called graft cases, as well as the inquiry relative to the disappearance of former Supervisor James Gallagher, were put over until the same time.

NEW TOWBOAT IS LAUNCHED IN ESTUARY

Rudolph N. Hits Water and Will Soon Be On Way North.

TO MAKE LONG TRIP WITHOUT SINGLE STOP

The launching of the twin screw towboat Rudolph N. from the ways of her builder, Wm. C. Ryer, proved a great success this morning, when at 8 o'clock the newly constructed vessel slid from the ways into the water of the estuary. The craft rode the water in a manner that satisfied her owner, P. Nelson, and called for praise from the many who were assembled. As soon as she was found to be perfect in every respect in regard to her hull the boat was towed to the Standard Engine company to have her engines installed.

The Rudolph N. will be used by her owner for towing purposes in the northern waters of the bay and for the hauling of the large salmon fish barges. The vessel when she leaves this port for the north will carry 4000 gallons of distillate, it being the intention of her owner to supply her the entire 3000 miles to the northern waters in one continuous passage, thus doing away with unnecessary delays of putting into ports for fuel.

The trip will be watched with considerable interest by mariners along this coast, this being the first time that a vessel of such small size has attempted the feat. The tanks of the vessel are capable of holding 3300 gallons of fuel oil, while the remaining 3000 gallons will be packed in cases and stored on and under the deck. According to Nelson, her owner, the Rudolph, with anything like fair weather, should make the passage without any great danger to her hull or crew.

IS STATION VESSEL.

The new vessel is 56 feet over all. Her beam is 14 feet 6 inches. She will be propelled with a 250-horsepower engine and is the first of her kind on the coast. Her stem is of bent oak. The planking and decking are of Oregon pine. The pilot house is built forward, from which it is possible to govern all the movements of the little craft when at sea. A small stateroom is built aft in which the owner will have his bunk. It is possible to put two men in the fore part of the hull while another can be put in with the owner. When the vessel leaves for the north, she will carry a crew of four men, including her owner, P. Nelson. The vessel is built on heavy lines, the work of towing salmon barges in the icy seas of the north necessitating a considerable heavy-duty.

Her engines will be installed in a few days and she will be given a trial trip about the bay, after which her fuel and supplies will be taken on board. She will begin a trip that will attract almost as much interest as that taken by Jack London on the Sklar.

DISCHARGING SUPPLIES.

The steamer City of Topeka of the Pacific Coast Steamship Co. is at Long wharf discharging supplies. The Topeka is owned by the United States and is in charge of Captain Glew. When the vessel arrived at this port yesterday she had among her passengers Frank L. Long, a wealthy shipowner of Alameda, who has been north looking up the purchase of a couple of schooners. Long was accompanied by his wife, having become of the benedictine class in the city. His wife was formerly Miss Josephine Halloran.

It is said that Long is making plans to purchase either the schooner Bertha Doherty or Lettie Carson, at present owned by the Doherty-Carson Lumber company. The two little schooners have been lying idle in the north for the past several years, having been discarded by their owners because they were too small for the coast lumber trade. The schooner Bertha, according to Long, is placed on the Canadian and Alaskan coasts, making calls at the wharves of these coasts where no regular steamers call.

After discharging 33,000 feet of lumber at Long wharf, the steam schooner Charles Nelson will leave for San Francisco. While the Nelson was lying at Long wharf she picked up 60 tons of giant powder from the scow schooner P. J. Clark. The powder was being exercised in order that the powder could not blow up.

After discharging lumber at the Sunset Lumber company's wharf, the steam schooner Talac steamed around to Long wharf, where she is picking up 500 tons of freight.

SKIN ON FIRE?

Just the mild, simple wash, the well known D. D. D. Prescription for Eczema, and the itch is gone.

A 25-cent bottle will prove it. We have sold other remedies for skin trouble, but none that we could guarantee as we can the D. D. D. remedy. If the first regular size \$1.00 bottle does not do exactly as we say, it will not cost you a cent more.

OAKLAND'S BOYS AND GIRLS

HOME INDUSTRY TO ENTER INTO THIS CONTEST

An original wagon and coaster contest, the first of its kind ever held in Oakland, will be conducted under the supervision of the Oakland playground department next Saturday afternoon in Bushrod park playground, Shattuck avenue and Sixteenth street.

According to the rules outlined by the commission all exhibits must be in the hands of the playground directors, on or before February 2. The contest is open to the boys of Oakland. The exhibits must be manufactured by the youngsters. No manufactured carts, wagons, coasters or automobiles will be allowed to be entered in the exhibition.

The exhibits will be divided into four classes as follows:

- Class A—Automobiles having mechanical steering apparatus.
- Class B—Coasters—vehicles having wheels.
- Class C—Wagons and ordinary four-wheeled vehicles.
- Class D—Carts and ordinary two-wheeled vehicles.

Prizes—Medals will be awarded in each class for the following: 1. Best workmanship; 2. Best idea; 3. Greatest durability. 4. Most artistic lines.

Special certificates will be given for other exhibits which in the opinion of the judges show special merit.

All exhibits will be returned to the owners.

OAKLAND YOUTH PLANS TO FLY

CARL MAU.

Ambitious to become an expert in aeronautics, Carl Mau, one of the enthusiastic members of the Oakland Aero Club, is building a machine which will be ready for flight within a few months.

Raymond Montague, William R. Davis and Harvey Morrill are engaged in making gliders.

The Aero Club was formed about a year ago and since its organization the boys have held a number of aerobatic contests in the gymnasium of the Young Men's Christian Association building.

The aerobatic exhibit next Friday evening will interest the boys of the association. The invited guests on that occasion will be the juniors of the juvenile department of the Y. M. C. A. There is a movement on foot to establish an Aero club for the older boys.

GIRLS' AEGIS SHOW TO BE HELD IN MARCH

Miss Soule, one of the members of the faculty, will act as the coach. The rehearsals for the performance will commence the last week in February.

According to a statement made by Mildred Manuel the Girls' Aegis will make its appearance May 3. It will be one of the most interesting editions of the year.

PATRIOTS' BIRTHDAYS WILL BE OBSERVED

By special order of the directors of the local Board of Education the high schools and grammar schools of this city will observe the birthdays of Abraham Lincoln and George Washington. Thursday morning, February 22, with patriotic exercises. The schools will be closed in the afternoon. For the first time in the history of the school department the Oakland institutions of learning will not close on Lincoln's anniversary. The regular school day will be followed and the schools will be dismissed at the usual hour.

SMELTER ENGINEER DIES OF INJURIES

Thomas W. F. Power, an engineer for the Soly-Solier company, at Crockett, who was injured in a boiler explosion January 16, died this morning at the Meritt hospital. Power had been under the care of Dr. J. H. Patton since being brought to Oakland, but on account of the severe burns he had received from the steam and scalding water, little hope was held out for his recovery.

The dead man was 51 years of age, and a native of England. He is survived by a wife who resides at 1239 College avenue, Alameda.

'RED ROSE' IN WEB OF SERPENTINE

The Chamber of Commerce Attends Play at Macdonough Theater.

Amidst a web of gaily colored serpentine and to the accompaniment of music and applause, 150 members of the Chamber of Commerce and the Chamber of Prosperity, committee of the Chamber of Commerce held their theater party at the Macdonough theater last night. The play was "The Red Rose," featuring Zoe Barnett, and among the guests of honor were the mayors of four cities on the east-bay shore, Mayors Frank K. Mott of Oakland, Mayor J. Stitt Wilson of Berkeley, Mayor James C. Owens of Richmond, and Mayor Hugh Craig of Piedmont.

The local boosters had the main part of the low floor for their own party, each member of which wore a red rose in keeping with the play. The affair was in part a token of appreciation of the efforts of Manager F. H. Giesea of the theater to raise the city from a one or two-night stand for theatrical attractions, which has been the custom in the past, to a week stand, which is the goal in general will aid in the response.

At last night's affair, the performance was made a gala one. In the last act of the piece, which is set in a cabaret in Paris, the serpentine which was usually thrown on the stage, were augmented by others from the audience, the performance concluding with a battle between the two parts of the house, in which all the members of the company, from prima donna to chorus girl, joined with the audience.

POSTPONE HEARING ON CANAL RATES

Secretary Stimson Listens to Plea of the Committee From Coast.

WASHINGTON, Jan. 30.—Secretary Stimson after hearing a committee from the Pacific coast today postponed a hearing on freight rates over the Panama canal to a date yet to be determined. The committee, which came from New York to London, until February 15.

The rates were increased because Col. Geithals had reported that the work of the canal was being hampered by the delay in the amount of heavy freight thrown on the Panama railroad. It also appeared that the road and the steamship line had a deficit of \$500,000 during the quarter that ended September 30, last.

COMMITTEES TO PLAN FOOTHILL BOULEVARD

Committees to investigate the proposition of a foothill boulevard from Hayward through to the Santa Clara county line, near Warm Springs, have been appointed by both the Chamber of Commerce and Merchants' Exchange. That from the Chamber of Commerce consists of H. C. Capwell, chairman; Victor H. Metcalf, Frank A. Leach Jr., C. J. Heeseman and A. A. Denison, while the Merchants' Exchange representatives are: A. Jonas, chairman; Colonel Theodore Gier, H. N. Gard, P. A. Young and Wilbur Walker.

These committees were appointed at the request of a delegation from the eastern end of the county, headed by Henry Lachman of Mission San Jose, which appeared before the two bodies at their last meetings, a week ago. The delegation favored the construction by the county of a scenic boulevard, virtually an extension of the present Foothill boulevard to Hayward, to connect at the Santa Clara county line with another road to San Jose.

PALMYRA ISLAND CAUSES DISPUTE

United States Will Resist Effort of British to Assume Control.

WASHINGTON, Jan. 30.—There is every indication that the American State Department will resist any attempt of a British syndicate or of the British government to assert sovereignty over the Palmyra island in the Pacific ocean. The United States and Great Britain may have to submit to international arbitration the question of sovereignty.

Governor Frear of Hawaii notified the State Department today that the island long had been in the possession of Judge Henry E. Cooper of the Hawaiian Supreme Court, who was much disturbed over the report that Great Britain was about to claim title.

GARCIA CELEBRATE THEIR SILVER WEDDING DAY

The cosy little Garcia home at 1502 East Fourteenth street was the scene last evening of great merrymaking when a small number of the friends of Mr. and Mrs. Garcia gathered there to celebrate the silver anniversary of the couple. The afternoon was spent in card playing and other amusements. In the evening an orchestra composed of a number of the friends of Mr. and Mrs. Garcia serenaded the assembled guests. Singing and dancing took up the remainder of the evening and it was not until the wee sma' hours of the morning that the gathering broke up. The party was literally showered with articles of silverware by their friends and relatives.

Frank Garcia is a prominent member of the U. S. E. C. and U. S. E. C. being a member of both for more than fifteen years. He is well known in East Oakland, where he has resided for more than twenty years. Mrs. Garcia is a member of the U. S. E. C. and U. S. E. C. and has more than once been identified with work in the Portuguese organizations in the section of the city east of the lake.

Those who gathered at the Garcia residence last evening included:

Mr. and Mrs. M. Ferreira, Mr. and Mrs. A. B. Field, A. Field, Mrs. M. B. Field, Mrs. Mary Bettencourt, Mr. and Mrs. T. P. Rose, Thomas Rose Jr., Mr. and Mrs. George Ferreira.

Those who were present were: Joseph Czech, Fuller, Kelley, Myers, Lamb and Jasper.

Miss Isabelle Garcia, the young daughter of the pair, entertained a number of her little friends, among whom were Hazel, Edith and Herman Ferreira, Edward and Isabelle Ferreira and George Ferreira Jr.

MEETING NOTICES

QUALIFY for good paying positions. Rosenbloom's Perfect System of Ladies' Garment Cutting will enable you to draft model fitting patterns with the utmost simplicity. Why waste time with charts or other complicated methods? See the Book and get free demonstration at 525 W. 12th st., office rooms 104-5-6; patterns cut to measure.

PERSONALS

AAA—Fear of Clairvoyants

I DO HEREBY SOLEMNLY AGREE AND GUARANTEE to make no charge if for to-day you want your husband, wife or sweetheart to be true or false; tell you how to gain the love of the one you most desire, even though miles away; how to succeed in business, speculation, law suits; how to gain youth, health and vitality; removes influences, cures drink habit, restores confidence, cures all nervous diseases. REV. J. BROWN TELLS ALL. Never asks a question. Consult this great clairvoyant. Permanently located in private home. This wise use of every method to compass victory. Thousands helped. Special reading, only 50c, from 9 to 9. 727 14TH ST., NEAR BRUSH.

A merchant would not think a woman very wise who purchased a yard sale home, a gown that she needed—even if it were very fine silk. Nor is the merchant wise to purchase a column less even if it is very fine advertising space—and costly.

ANY poor girl in need of a friend, a home or advice, is invited to call or write the matron of The Salvation Army Home, Beulah Heights, Cal.; phone Merritt 3827.

GAS CONSUMERS' Association reduces your bill 15% to 20%. 359 12th st.

Ask Your Doctor

We have had seventy years of experience with Ayer's Cherry Pectoral. That makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. Ask your own doctor what experience he has had with it. He knows. He can advise you wisely. Keep in close touch with him.

TELLS YOU HOW
TO CURE A COLD

Surely Breaks the Most Severe Cold and Ends Grippe Misery in Just a Few Hours.

The most effective and harmless way to cure a cold or break a severe cold, either in the head, chest, back, stomach or limbs, is a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel the cold breaking and all gripe symptoms going after the very first dose. It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, soreness, stiffness and rheumatic aching. Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world which will cure your cold or end gripe misery as promptly and without any other assistance or bad after-effects as the 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

After three years' research we have conclusively demonstrated that quinine is not effective in the treatment of colds or grippe.

EXTRA RICH BACHELOR
HERE, AND IT'S LEAP YEAR

Col. Green, Who Admits He's Willin', Arrives With Lawyer and Secretary

SAN FRANCISCO, Jan. 30.—Colonel Edward Howard Robinson Green of Carroll, Texas, son of the famous Hetty Green, of Wall street, railroad president and bachelor, is at the St. Francis. This will all be good news to the leap year bachelor girls, for Colonel Green has personally heralded himself, and admitted that he is prepared for the greatest emergency, and he is in a receptive mood to respond to the darts from Cupid's bow.

Colonel Green has formed an ideal, and she must be a western girl, meaning that if the matrimonial prize is to be found she will have come out of the west, free from all the foibles of the eastern social whirl, and a real type of western womanhood, such as the illustrious Harrison Fisher was so eagerly seeking for a year ago in California.

NO MERE CLOTHES HORSE.

"Timothy, marry a woman, not a clothes horse," are Colonel Green's own words.

Add domesticity to Fisher's type of western woman and you have the correct ideal of Colonel Edward Howard Robinson Green.

Colonel Green is accompanied on his visit to San Francisco by his first in several years, by Charles W. Pierson of New York, attorney for all the Green family interests, and his secretary, W. H. Marshall.

When questioned relative to the Colonel's mission here, Attorney Pierson said: "You'll have to see the Colonel."

When Secretary Marshall was asked to answer "Ask the Colonel."

"I'm here to look over conditions," he added.

"Financial or matrimonial?" ventured his interviewer.

"Both," he responded the Colonel.

ALWAYS FOR THE WEST.

Upon being asked about his supposed purpose to leave Texas and live in New York, and the interviewer added, "and would that indicate that you might make

your matrimonial selection from the east?"

The Colonel carefully framed his answer, and said he "was not out of the west for the east, or vice versa. Well, I am like Captain Green, belonging to the west. Texas is my home."

Colonel Green first expressed his ideals last season when society was at its height in New York.

He is quoted as saying:

"New York women do not seem to know the real meaning of marriage, they marry for some time out of it."

"Children are the last thing they want. They are the very last word of the useless. If they can have beautiful clothes and look fashionable they do not worry about domestic accomplishments."

"None of them know how to cook or sew. If a fashionable New York woman wears up Fifth Avenue with a ring in her nose the jewelers could not finish nose rings fast enough to supply the demand."

SHOCKING, VERY!

"They want to peacock about restaurants and theaters for the purpose of being seen by men who are not their husbands. Women should marry with the idea of having children and caring for a home."

"Children should be brought up like chickens and healthy pups where there are plenty of dirt. And there are plenty of gas and dirt in the west," declared the Colonel.

LEAP YEAR NO TERROR.

He laughed merrily at the suggestion that the leap year may seal his fate.

"I may say 'I do' to a woman. If I should run across a woman I thought fulfilled my ideas I'd marry her. For all we know you may have that woman here. Tomorrow may be too late. I have no dislike for your Golden State. We're all westerners."

How long Colonel Green will remain here he was not prepared to say yesterday.

"Probably ten days," said he. "Perhaps longer."

W. C. T. U. STORMS
NATIONAL SENATE

"White Ribbon" Campaign in the Halls of Congress. Began Today.

WASHINGTON, Jan. 30.—Leaders of the W. C. T. U. and a host of state workers stored the Senate Judiciary committee today for a favorable action on the Kenyon Sheppard bill, which would prohibit shipments of liquor into "dry" territory.

Mrs. Lillian M. Stevens, national president of the organization; Anna Gordon, vice-president, and Ellen M. Stone, missionary and temperance worker, headed the delegation. The presence of the national leaders in Washington will signalize a week of the "white ribbon" campaign in the halls of Congress.

\$30,000 DAMAGE SUIT
OUTCOME OF ROAD RACES

Claims against the Board of Supervisors for \$30,000 damages were filed yesterday by Theodore Koehs for injuries sustained by his son, Theodore Jr., during the automobile road races early last year, when the lad was struck by a speeding car as he stood near another auto in front of the grand stand along the county road not far from the infirmary.

Half of the amount is asked by the father in behalf of the boy and the remainder for the injuries, which consisted of a fractured leg. It is denied that if the claim is denied a suit will be brought against the county, plaintiff holding that the county officers were responsible for the policing of the road during the races. The claim has been referred to Deputy District Attorney Leon Clarke.

INSTRUCTED VERDICT
AGAINST CHARLES PRYAL

In the Superior Court late yesterday afternoon, Judge William S. Wells instructed a jury to return a verdict against the claims of Charles L. Pryal for a share in the estate of his deceased sister, Mary Pryal. Contestant alleged that William A. Pryal, his brother, had exerted an undue influence over his sister and had induced her to own property above the Claremont hotel value at about \$65,000. Judge Wells instructed the jury that there was no sufficient evidence adduced at the hearing to show that undue influence was exerted by William A. Pryal in any of his transactions with his deceased sister.

SUES AUTO OWNER.

SAN JOSE, Jan. 30.—Placing a value of \$5,000 on the bone and muscle he lost and demanding the reimbursement of \$275 he was out for medical attendance and \$15 for repairs to his wheel, Philip Weaver filed a suit against A. R. Carter in the superior court. The suit is the result of an accident that took place on the Stevens creek road near Meridian corners on June 17 last, when Carter, in an automobile, ran down Weaver, on a bicycle, injuring him seriously.

MUCH CONCERN OVER
REPORTED RABIES CASE

SACRAMENTO, Jan. 30.—State veterinarian Dr. C. Kean has received a report of two cases of rabies in dogs at Sacramento. These are the first to be reported from that city and great concern is being manifested in the veterinarian's office pending an investigation to establish whether the report is true. These two dogs died in a veterinary hospital and their heads have been ordered shipped to the state laboratory at Berkeley, where an examination of the brains will be made to determine whether the disease was present.

PLANS RADICAL CHANGES.

WASHINGTON, Jan. 30.—A general term for the postmaster-general, the elimination of the entire postoffice department from politics, and the appointment of all postmasters by the head of the department instead of by the President, was presented in the House yesterday by Representative Norris of Nebraska.

CASCARETS INSURE
INSIDE CLEANLINESS

The Millions of Cascaret Users Never Have Headache, Constipation, Biliousness or Sick Stomach.

It is more necessary that you keep your Bowels, Liver and Stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets? Are you forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the decomposed waste matter and poisons in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

POLICE BEATEN
BY GRIM REAPER

While Searching for One Brother They Find Dead Body of Another.

CHICAGO, Jan. 30.—While hunting for Antonio Maggiero, Jr., who it was thought had been kidnapped, the police today found the body of another brother, for whom they have been searching for three weeks, suspecting he had knowledge of "black hand" outrages here. But Michael will not be arrested. A few minutes before the police shoved open the creaking door of a back room in which he had been hidden, death had claimed him. He was tubercular. "His enemies cursed him and he could have no luck," his widow wailed.

MURDER TRIAL OF SON
OF WEALTH IS BEGUN

EDWARDSVILLE, Ill., Jan. 30.—The trial of George Yates, son of a wealthy farmer living near here, for the murder of his wife, began yesterday in the Madison county court here. Eight jurors had been obtained when court adjourned.

That a plea of insanity will be advanced by the defense was evidenced by the outset when J. J. Brenhoff of defendant's counsel moved a continuance on the ground that Dr. Joseph Pugh was present and could not attend. He said the physician will testify that Yates was insane at the time of the killing.

SHERIFFS OF NORTH
PLAN BUSY SESSION

WALLA WALLA, Jan. 30.—Adopt a uniform fee system; establish a central bureau of identification for the northwestern states and British Columbia; arrange for a pension for wives and families of officers killed in discharge of their duty; remove the two-term limit sheriffs have in office. These in brief are the things the Washington State Sheriffs' Association hopes to bring about as a result of the three-day annual session. Some of the matters will take much time and work, but they hope to at least start the wheels turning which will eventually bring about these changes.

BIG ORGAN READY.

KANSAS CITY, Jan. 30.—With the final adjustment of the maze of stops and a flicker of practiced fingers over the manuals, the giant pipe organ built at a cost of \$25,000 in the Grand Avenue M. E. church, Kansas City's skyscraper house of worship, was completed today. The dedicatory program of the organ will be given February 13 by Edwin A. Kreiser. Kansas City now has the use of the largest pipe organs west of Chicago.

PROMINENT FRENCHMAN VISITS.

LOS ANGELES, Jan. 30.—Claude Casimir-Perier, son of a former president of the Republic of France, and himself a special representative of that government, has arrived here on a trade inspection tour. He will pay particular attention to the possibilities of the Republic of France, and French shippers upon the opening of the Panama canal.

LEWERS TO BE MADE
COLLEGE PRESIDENT

RENO, Nev., Jan. 30.—Ever since the action of the Board of Regents of the University of Nevada in delicately shelving John E. Stubbs, the president of the institution, rumors have been rife as to whom the plum would fall.

It is now tacitly understood that the present vice-president, Dean Lewers, will be awarded the position. Lewers will have the undivided support of the regents and student body. Stubbs has arrived in New York for the purpose, it is said, of conferring with Clarence J. Mackay relative to the big fund which he has solicited for the university from the children of the old Comstock millionaires.

Dean Lewers is now acting managing head of the university and it can be said that his tenure of office has really been inaugurated.

Effective Home Remedy
for Tuberculosis

It is a serious matter when the lungs are affected. A trip away to a sanatorium is not only tremendously expensive, but it involves separation from home and friends. Some are so badly affected that they cannot safely return. Eckman's Alternative is effective—no leaving home necessary. For example:

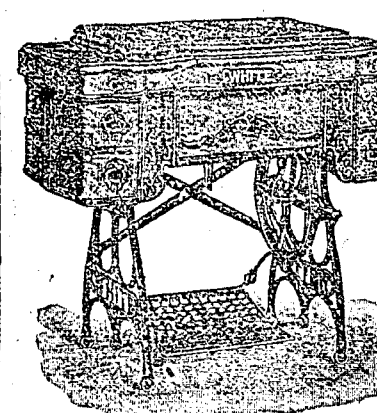

"Gentlemen: In the fall of 1905 I contracted a very severe cold, which settled on my lungs. At last I began to raise spittle, and my physician then told me I must go to California immediately. At this time I was advised to take Eckman's Alternative, stayed at home and commenced taking it the last week in October. I began to improve, and the first week in January, 1906, I resumed my regular occupation, having gained 25 pounds, fully restored to health. I am now five years since my cure has been effected, and I cannot praise Eckman's Alternative too highly. I have recommended it with excellent results."

(Signed) W. M. TATEM.

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit forming drugs. For sale by the Owl Drug Co., and other leading druggists. Ask for booklet of cured cases and write to Eckman Laboratories, Philadelphia, Pa., for additional evidence.
